book is timely in its focus on critical issues which frame and scope the reality of palliative care and the nursing contribution to that discipline. The learning exercises in particular offer tools for educators and clinicians to reflect on practice and understand new ways of knowing in palliative care. It will be an excellent resource for nursing both in the UK and Ireland and to the wider international audience having drawn on the breadth of global nursing expertise to bring this book together. Philip Larkin Professor of Clinical Nursing Palliative Care University College Dublin and Our Lady's Hospice and Care Services Dublin Ireland President European Association for Palliative Care. This is a book of substance that captures the current status of palliative nursing including the values and research evidence that underpin it. The changing nature of palliative nursing as an evidence based specialism is balanced with practical skills and insights from experts and also considers the needs of those working with or concerned about the dying person's well being. It covers a range of challenging issues as well as drawing on the wisdom of those who actually undertake this work on a daily basis. I hope that students and practitioners from all disciplines will find this a useful resource to understand the art and craft of good palliative nursing. Professor Daniel Kelly Fellow of the Royal College of Nursing and Royal College of Nursing Chair of Nursing Research Cardiff University UK

Ethics in Palliative Care Robert C. Macauley MD, 2018-03-01. No specialty faces more diverse and challenging ethical dilemmas than palliative medicine. What is the best way to plan ahead for the end of life? How should physicians respond when patients refuse treatments likely to be beneficial or demand treatments not likely to be? Who makes medical decisions for patients who are too ill to decide for themselves? Do patients have the right to die and if so what exactly does that mean? In this volume noted palliative care physician and bioethicist Robert C Macauley addresses a broad range of issues from historical legal clinical and ethical perspectives. Clinically nuanced and philosophically rigorous *Ethics in Palliative Care* analyzes hot button subjects like physician assisted dying and euthanasia as well as often overlooked topics such as pediatric palliative care organ donation palliative care research and moral distress. Drawing on real cases yet written in non technical language this complete guide will appeal to both medical professionals and lay readers. *Journal of Palliative Care*, 2004
