Totalement inhumaine Jean-Michel Truong, 2015 La 4eme de couv indique Dans cet essai provocateur le psychologue et philosophe Jean Michel Truong pr dit l mergence dans les r seaux d une intelligence sup rieure celle de l Homme Elle na tra de l essor conjugu de l Internet de la biologisation des logiciels et de la mondialisation lib rale L auteur qui fonda dans les ann es 1980 la premi re entreprise europ enne sp cialis e dans l intelligence artificielle poursuit ici sous une forme plus politique la r flexion qu il avait engag e dans son roman Le sucesseur de pierre Totalement inhumaine Jean-Michel Truong, 2001 Le cauchemar a commenc Guerre des toiles mondialisation net conomie t l phone mobile mise en r seu des logiciels gr ce Internet o cela nous conduit il A partir des donn es scientifiques les plus r centes l auteur montre que l intelligence est en Train d embarquer sur un nouvel esquif et que son odysse e se poursuivra bien t sans nous Peut tre est il d j trop tard **L'inhumain dans le thâtre d'Albert Camus** Karima Ouadia, 2005 **Cataclysms** Laurent Testot, 2022-12-22 Humanity is by many measures the biggest success story in the animal kingdom but what are the costs of this triumph Over its three million years of existence the human species has continuously modified nature and drained its resources In Cataclysms Laurent Testot provides the full tally offering a comprehensive environmental history of humanity s unmatched and perhaps irreversible influence on the world Testot explores the interconnected histories of human evolution and planetary deterioration arguing that our development from naked apes to Homo sapiens has entailed wide scale environmental harm Testot makes the case that humans have usually been catastrophic for the planet hyperpredators responsible for mass extinctions deforestation global warming ocean acidification and unchecked pollution as well as the slaughter of our own species Organized chronologically around seven technological revolutions Cataclysms unspools the intertwined saga of humanity and our environment from our shy beginnings in Africa to today s domination of the planet revealing how we have blown past any limits along the way whether by exploding our own population numbers domesticating countless other species or harnessing energy from fossils Testot s book while sweeping is light and approachable telling the stories sometimes rambunctious sometimes appalling of how a glorified monkey transformed its own environment beyond all recognition In order to begin reversing our environmental disaster we must have a better understanding of our own past and the incalculable environmental costs incurred at every stage of human innovation Cataclysms offers that understanding and the hope that we can now begin to reform our relationship to the Earth On the Human Condition Dominique Janicaud, 2005-11-04 On the Human Condition is an invigorating and fascinating exploration of where the idea of the human stands today Posthumanism Stefan Herbrechter, 2013-09-26 Provides an analysis of the main preconceptions and desires underlying past and current representations of posthumanist futures **The Reparable and the Irreparable** Johann Michel, 2022-12-19 Since the mid twentieth century Western societies have seen an unprecedented increase in movements demands and policies in favor of reparations The historical catastrophes that shook the last century are both the immediate

origin of this groundswell and its founding paradigm The Repairable and the Irreparable Being Human in the Age of Vulnerability places reparation within a wider contemporary context and describes it in its full anthropological depth Repair is a global phenomenon that does not present itself in a unified way Ideas of repair and reparation are expressed at different levels for instance one can mend a damaged object heal a wound redress an injury or make amends for an offence Johann Michel explores how repair and reparation tell us about human beings natural vulnerability our moral fallibility and our social incompleteness but also about the many capabilities we draw upon to mitigate these shortcomings It is from the heart of human finitude that repair and reparation draw meaning and the irreparable whether due to time or to a debt that can never be repaid haunt any policy of reparation Such are the challenges to be addressed by a philosophy of repair and reparation constructed in renewed dialogue with the social sciences

The Matrix in Theory Myriam

Díaz-Diocaretz, Stefan Herbrechter, 2006 The Matrix trilogy continues to split opinions widely polarising the downright dismissive and the wildly enthusiastic Nevertheless it has been fully embraced as a rich source of theoretical and cultural references The contributions in this volume probe the effects the Matrix trilogy continues to provoke and evaluate how or to what extent they coincide with certain developments within critical and cultural theory Is the enthusiastic philosophising and theorising spurred by the Matrix a sign of the desperate state theory is in in the sense of see how low theory or post theory has sunk Or could the Matrix be one of the master texts for something like a renewal for theory as now being mainly concerned with new and changing relations between science technology posthumanist culture art politics ethics and the media The present volume is unashamedly but not dogmatically theoretical even though there is not much agreement about what kind of theory is best suited to confront post theoretical times But it is probably fair to say that there is agreement about one thing namely that if theory appears to be like the Matrix today it does so because the culture around it and which made it itself seems to be captured in some kind of Matrix The only way out of this is through more and renewed refreshed theorising not less
