exciting new strategies we can use to meet our highest potential Gretchen Rubin bestselling author of The Happiness Project A vibrant book on how to bring out the best in others and how they can bring out the best in us Adam Grant 1 New York Times bestselling author of Think Again and host of the podcast WorkLife In a world that thrives on competition and individual achievement we re measuring and pursuing potential incorrectly Pursuing success in isolation pushing others away as we push ourselves too hard not only limits our potential but makes us more stressed and disconnected than ever Harvard trained researcher Shawn Achor reveals a better approach With exciting new research combining neuroscience and psychology with Big Data Achor shows that our potential is not limited by what we alone can achieve Instead it is determined by how we complement contribute to and benefit from the abilities and achievements of people around us When we as individuals leaders and parents chase only individual achievement we leave vast sources of potential untapped But once we put others back into the equation and work to make others better we ignite a Virtuous Cycle of cascading successes that amplify our own The dramatic shifts in how we approach work today demand an equally dramatic shift in our approach to success In Big Potential Achor draws on cutting edge original research as well as his work with nearly half of the Fortune 100 and with places like NASA the NFL and the NBA and offers a new path to thriving in the modern world [Touchpoints for Graduates](#) Family Christian Stores, Incorporated,2001 [Learn to lead yourself, your people and your organization for great results](#) ,2023-12-20 Putting people first has always been the basis of our success We believe that if we take care of our employees they will take care of our customers and the business will take care of itself Even after the 9 11 terrorist attacks in New York where we went from an occupancy rate of 75 to 5% overnight where our hotels were empty of guests but full of staff putting people first was the our priority Instead of suffering massive layoffs we implemented education programs maintained health benefits and did everything we could to get through the crisis with minimal negative impact on our people In a business like ours and I believe in any other sector we simply cannot be successful unless people are truly committed and happy in their work It is our commitment to create an environment where the unique contributions of our people are valued I believe the fact that Marriott is consistently considered an employer of choice is the result of these efforts Promoting a people first culture starts with leadership Leaders must model the way They must act interact and engage with the people they lead in a way that makes people feel seen heard and valued In The Mind of the Leader Rasmus Hougaard and Jacqueline Carter provide a clear path to creating people first organizations It requires leaders to be human first to be mindful selfless and compassionate and in doing so develop the qualities that enable engagement fulfillment and meaning which leads to greater business success If we as leaders are attentive we will know better what really matters to our people We are more present attentive and curious It s not always easy but I know the difference between being present with my people and when I m not I only have an impact when I am If we as leaders are selfless taking into account the bigger picture rather than our own selfish needs we will model cultures of growth and learning Bill Marriott our executive chairman even now in his

eighties always has his ear open He is always seeking the perspective of others rather than blindly following his own beliefs and ideas If we as leaders are compassionate our people will know we are protected As this book clearly describes compassion is not soft and sentimental It is concrete and practical It s about doing the right thing like putting a doctor on staff during the Depression Again if we truly care about our employees they will truly care for our customers and the business will truly care for itself In many ways the principles in this book run counter to the number of businesses run It inspires me and provides insights to further evolve our culture and put people first And I believe that all leaders and other organizations will benefit greatly from its messages
