

Introduction to Objectives of the United States Foreign Policy

IAPSS Think Tank

Working Group 1 : Chander Busham NAGAR, Per HELBERG, Fanny POTKIN

Introduction

Foreign policy of any country is not simply an assemblage of the policy statements of a country, but it also refers to the commitments, the current form of interests, aims and objectives of a government. Thus, in order to understand the foreign policy of any government it becomes vital to understand the country's national interests and the strategies adopted to achieve it. It has already been proved several times that no government is able to formulate its foreign policy on a clean slate, its policy is always conditioned by its past circumstances.

The case of United States of America is much similar to those of the India's foreign policy in the first quarter of its independence. The first prime minister of India Pt. Jawahar Lal Nehru, has himself drawn parallel and former Ambassador of the United States of America, Chester Bowles has given his view that India's policy is practically indistinguishable from the foreign policy of the United States from 1787 to 1937. The United States won its independence in an un-crowded world that

had not yet entered the industrial revolution. There were no great discrepancies in national wealth and the United States (U.S.) was essentially self sufficient. As like the case of colonial India, it engaged extensively in foreign commerce, but its own resources enabled it to do so advantageously and it enjoyed a high relative standard of living.

The fundamental principles of United States foreign policy have been stated in general terms on numerable number of occasions. Some of the statements are general in nature. Some of them were quite relevant from the various point of views. An important view in this regard is to study the history of United States Diplomacy. By going through the various texts we can reach to this conviction that there are certain underlying concepts and principles which had played an important part in U.S. foreign policy throughout all, or most of the history of the United States.

The most basic fundamentals of the U.S. foreign policy are those of the "Security expansion and neutrality". The other view quotes some of the fixed points in the U.S.
