Universal Religion:

The Concept of Universal Religion in Modern Hindu Thought A. Sharma, 1998-10-19 Hindu thought has undergone a major reconfiguration in the nineteenth and the twentieth centuries in response to its encounter with the forces of modernity. A key element in this reconfiguration is the perception of Hinduism itself as a universal religion or as a catalyst promoting the emergence of a universal religion or at the very least as promoting religious universalism. This book examines the views of several major Hindu thinkers of this period. Swami Vivekananda and Mahatma Gandhi prominent among them on this potent theme of modern Hinduism.

The Universal Religion Christopher Alan Anderson, 2012-09-13 In this writing the author completes and unites all religions in a breathtaking articulation of the universal construct of man and woman balance upon which all things rest. The resurrection is your rebirth into man and woman balance. I am reborn into life love with You. I am not alone. You are with me. Our hearts are pure and our fear has departed. The Universal Religion: The Final Destiny of Mankind. Author Bio: Christopher Alan Anderson, 1950 received the basis of his education from the University of Science and Philosophy, Swannanoa, Waynesboro, Virginia. He resides in the transcendental romantic tradition that vein of spiritual creativity of the philosopher and poet. His quest has been to define and express an eternal romantic reality from which a man and a woman could together stand in their difference and create a living universe of procreative love. Mr Anderson began these writings in 1971. The first writings were published in 1985. On a personal note when Mr Anderson was asked to describe the writings and what he felt their message was he responded: Spiritual procreation. Mankind has yet to distinguish the two sexes on the spiritual level. In this failure lies the root of our problems and why we cannot yet touch the eternal together. The message of man and woman balance brings each of us together in love with our eternal other half right now.

Toward Universal Religion Daniel R. Chandler, 1996-02-28 Using the 1893 and the 1993 World's Parliament of Religions as a focus for probing intercultural religious communication, this study describes more than a century's preoccupation with a provocative phenomenon called universal religion. It presents 12 enduringly significant speakers whose rhetorical effectiveness combined with their concepts of universal religion forge an intercultural synthesis combining Eastern religions and Western thought. This volume will interest scholars and students of both religion and rhetoric as well as the general public. It provides a deeper appreciation of such well-known communicators as Emerson and Thoreau as well as an introduction to the significant contributions of thinkers such as Roy Sen, Besant, Vivekananda, Tagore, Radhakrishnan, Gandhi, Jenkins, Lloyd Jones, John

Haynes Holmes and Preston Bradley The 1893 Parliament of The World s Religions and the 1993 World s Parliament of Religions are described by contemporary historians as watersheds in human history and turning points in humanity s spiritual progress These parliaments are the two occasions when the world s religious leaders have gathered and the events symbolize a growing preoccupation with an emerging universal religion evolving through interreligious communication The 1893 Parliament is recognized for commencing interreligious dialogue and encouraging comparative religion the 1993 Parliament is remembered for networking the worldwide religious and spiritual communities This volume describes a little known but highly important minority movement in which a comparatively few communicators in India and the United States have progressively synthesized Eastern religion and Western thought The work examines these speakers and their speeches by placing this distinctive rhetorical discourse within their historical times and cultural contexts specifying the concepts about universal religion proposed by each speaker and indicating their contributions to an emerging and evolving religion that is universal
