Solace Of Open Spaces:

The Solace of Open Spaces Gretel Ehrlich, 2017-02-21 These transcendent lyrical essays on the West announced Gretel Ehrlich as a major American writer Wyoming has found its Whitman Annie Dillard Poet and filmmaker Gretel Ehrlich went to Wyoming in 1975 to make the first in a series of documentaries when her partner died Ehrlich stayed on and found she couldn't leave The Solace of Open Spaces is a chronicle of her first years on the planet of Wyoming a personal journey into a place a feeling and a way of life Ehrlich captures both the otherworldly beauty and cruelty of the natural forces the harsh wind bitter cold and swiftly changing seasons in the remote reaches of the American West She brings depth tenderness and humor to her portraits of the peculiar souls who also call it home hermits and ranchers rodeo cowboys and schoolteachers dreamers and realists Together these essays form an evocative and vibrant tribute to the life Ehrlich chose and the geography she loves Originally written as journal entries addressed to a friend The Solace of Open Spaces is raw meditative electrifying and uncommonly wise In prose as expansive as a Wyoming vista as charged as a bolt of prairie lightning Ehrlich explores the magical interplay between our interior lives and the world around us Newsday The Solace of Open Spaces Gretel Ehrlich, 2019-03 A stunning collection of personal observations that uses images of the American West to probe larger concerns in lyrical evocative prose that is a true celebration of the region **The Norton Book of Nature Writing** Robert Finch, John Elder, 1990 W W Norton is pleased to announce that The Norton Book of Nature Writing is now available in a paperback college edition *Study Guide for the Solace of Open Spaces by Gretel Ehrlich* Janet Lee Jacobsen, 1986

Narrating the American West, *Summary of Gretel Ehrlich's The Solace of Open Spaces* Everest Media, 2022-04-30T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The state of Wyoming is known for its openness It is a land of wind and rattlesnakes but it also has a lot of nothingness which can be difficult to navigate But it doesn't affect me at all 2 Wyoming is a state full of contrasts It has the look of a harsh and deserted place but its inhabitants are very welcoming and cooperative 3 The western states of Wyoming and Montana are home to a tradition of good naturedness that is concomitant with severity The isolation in which people live makes them quiet and they telegraph thoughts and feelings by the way they tilt their heads and listen 4 The laconic style is a result of shyness There is no vocabulary for the subject of feelings so people hold back their thoughts in what seems to be a dumbfounded silence then erupt with an excoriating perceptive remark **Open Space New Media Documentary** Patricia R. Zimmermann, Helen De Michiel, 2017-11-22 Open Space New Media Documentary examines an emerging and significant area of documentary practice in the twenty first century community based new media documentary projects that move across platforms and utilize participatory modalities The book offers an innovative theorization of these collaborative and collective new media practices which the authors term open space gesturing towards a more contextual critical nexus of technology form histories community convenings collaborations and mobilities It looks at a variety of low cost sustainable and scalable

documentary projects from across the globe where new technologies meet places and people in Argentina Canada India Indonesia Peru South Africa Ukraine and the USA

Refiguring the Map of Sorrow Mark Christopher Allister, 2001 This study brings together the genres of autobiography and environmental literature It examines a form of grief narrative in which writers deal with mourning by standing outside the text in writing about the natural world and inside it in making that exposition part of the grieving process

The Place Within Jodi Daynard, 1997 Here you ll find the American spirit in Phillip Lopate s gridlocked Manhattan in Richard Rodriguez s gay San Francisco and in Gerald Early s uneasily integrated St Louis In her moving essay on South Dakota Kathleen Norris reflects on the way objects change our experience of space Gretel Ehrlich s essay on Wyoming is also about a cure for human grief

Of Women and the Essay brings together forty six American and British women essayists whose work spans nearly four centuries The contributions of these essayists prove that women have been significant participants in the essay tradition since the genre s modern beginnings in the sixteenth century Many of these essayists such as Eliza Haywood Fanny Fern Gertrude Bustill Mossell Agnes Repplier and Alice Meynell achieved significant success as writers within whatever essay form ruled the day others bent the rules though often imperceptibly to make room for themselves Collectively they represent a missing piece in the larger history of the essay In *Of Women and the Essay* Jenny Spinner contextualizes the broad range of literary essays included within the chronological development of the genre She makes a compelling argument that women have constructed their own tradition in the essay genre often utilizing periodic traits of the essay to their own advantage At the same time she suggests that the personal essay s demands on the essayist required both a public and personal authorization that proved challenging for women essayists in general and for women of color in particular The appendix catalogs the works of nearly 200 female essayists and should inspire further reading As a whole the volume lifts women writers from the cutting room floor of essay scholarship and returns them to their rightful place in the essay canon

Islands, the Universe, Home Gretel Ehrlich,1992-10-01 Gretel Ehrlich's world is one of isolation and wonder of pain and grace and these elements ignite her vivid imagination She writes of ravens and elk and prairie dogs and eagles falling out of the sky She tells of a voyage of discovery in northern Japan where she finds her bridge to heaven She captures a light moving down a mountain slope One evening there is a contrapuntal dance of death a calf she has tried to save and a friend and mentor both die She remembers what a painter once told her when she was twelve years old as he was painting her portrait You have to mix death into everything Then you have to mix life into that If they are not there I try to mix them Otherwise the painting won't be human Through these explorations in prose that is supple and muscular and evocative Ehrlich begins to understand her own longings her own nature and the relatedness of her life to the universe A volume of ten deep wandering essays that at times are so point blank vital you nearly need to put down the book to settle yourself Peter Stack San Francisco Chronicle Her essays delicately combining interior and exterior exploration are as spare and beautiful as the landscape from which they've grown Each one is a pilgrimage into the secrets of the heart Andrea Barrett The Cleveland Plain Dealer
