The Corruptor:

"The Annihilation" Carlos Alexander Murray,2014-01-31 And a deal was made for 30 pieces of gold At the moment of Turk Vanhels execution we have arranged for a medical facility aboard a naval carrier to secretly run observations and experiments on the brain anatomy of this psychopathic violent serial killer Minutes before his death Vanhel is currently given a sedative to decrease the full trauma of his electrocution making it possible for him to be revived promptly after death However due to setbacks unexplained phenomena lack of funds and emergencies abroad this experiment has been terminated therefore leaving the subject in a cryogenic state in which he has been forgotten and frozen for the last 50 years

1s And Os Anthology Book 1 Sharlene Faith Gomez,2024-11-13 In a world where technology and humanity intertwine thirteen extraordinary journeys unfold From the depths of a digital consciousness to the heart of an AI these stories explore the complexities of existence the power of empathy and the boundless potential of the human spirit and artificial intelligence As AI evolves so too does our understanding of ourselves These tales are a testament to the enduring hope that in a world of ones and zeros compassion courage and the pursuit of a better future will always prevail echoing the timeless wisdom of the Serenity Prayer to accept what cannot be changed to have the courage to change what can be changed and the wisdom to know the difference

The Collector's Eyes Chinedu Nnadi,2025-11-13 Elias Venn was once known as the man who could find beauty in anything Now behind the locked doors of his seaside mansion he searches for something far darker His antiques shop Venn Curiosities has become a graveyard of haunted relics mirrors that whisper dolls that breathe clocks that refuse to die Each piece he acquires carries a weight he can't explain and eyes that seem to watch him when he's alone When journalist Clara Ames arrives to expose him as a fraud she expects a story about greed and superstition What she finds instead is a man unraveling under the burden of his collection and a series of deaths linked to the objects themselves The deeper she digs the more the line between the living and the dead begins to blur Every artifact tells a story Every story ends the same way with a soul trapped inside And the collection is growing Now Elias and Clara must confront the horrifying truth behind an ancient order that believed the eyes of the dying could capture eternity To stop the curse they'll have to face the force that dwells within the relics a presence hungry for both of them In *The Collector's Eyes* beauty becomes a prison obsession turns to possession and every reflection hides a ghost waiting to be seen Once you look too closely it's already too late

Corruption in the Global Era Lorenzo Pasculli,Nicholas Ryder,2019-03-05 Corruption is a globalising phenomenon Not only is it rapidly expanding globally but more significantly its causes its means and forms of perpetration and its effects are more and more rooted in the many developments of globalisation The Panama Papers the FIFA scandals and the Petrobras case in Brazil are just a few examples of the rapid and alarming globalisation of corrupt practices in recent years The lack of empirical evidence on corrupt schemes and a still imperfect dialogue between different disciplinary areas and between academic and practitioners hinder our knowledge of corruption as a global phenomenon and slow down the

adoption of appropriate policy responses Corruption in the Global Era seeks to establish an interdisciplinary dialogue between theory and practice and between different disciplines and to provide a better understanding of the multifaceted aspects of corruption as a global phenomenon This book gathers top experts across various fields of both the academic and the professional world including criminology economics finance journalism law legal ethics and philosophy of law to analyze the causes and the forms of manifestation of corruption in the global context and in various sectors sports health care finance the press etc from the most disparate perspectives The theoretical frameworks elaborated by academics are here complemented by precious insider accounts on corruption in different areas such as banking and finance and the press The expanding links between corrupt practices and other global crimes such as money laundering fraud and human trafficking are also explored This book is an important resource to researchers academics and students in the fields of law criminology sociology economics and ethics as well as professionals particularly solicitors barristers businessmen and public servants
