The Cyprus Problem:

Contemporary Social and Political Aspects of the Cyprus Problem Jonathan Warner, David W. Lovell, Michalēs Kontos, 2016 In today's world the issue of Cyprus is notable for all the wrong reasons because of the duration of the divisions in Cyprus itself between Greek Cypriots and Turkish Cypriots formalized since 1983 by a disputed international border across the island because of the involvement of Greece and Turkey for which the hyphenated Cypriot communities form proxy battalions and because of the failure of the United Nations longstanding efforts to resolve the conflict Much of the discussion in the book revolves around the difficulty of producing viable constitutional and civic arrangements in an ethnically divided polity It is clear that this issue dominates almost all discussions of the Cyprus Problem from the drawing of internal borders the conceptualization of identity of oneself and of the other to the management of the natural resources with which the island is endowed Containing chapters from both Turkish and Greek Cypriots as well as outside scholars the book covers four key themes namely identity and perceptions contemporary issues in the Greek and Turkish Cypriot communities comparisons with divided polities elsewhere and new approaches to resolving the Cyprus Problem One of the key messages from this book is that people to people initiatives must supplement the plans and posturing of politicians in order to make progress towards an ultimate resolution of the Cyprus Problem The book shows that human ingenuity is able to find a widely accepted and workable formula for a Cyprus that combines unity and diversity acknowledges the worth of its different constituent communities and addresses or begins to move beyond historical animosities and injustices
