*Borderland Films* Dominique Brégent-Heald, 2015-11 The concept of North American borderlands in the cultural imagination fluctuated greatly during the Progressive Era as it was affected by similarly changing concepts of identity and geopolitical issues influenced by the Mexican Revolution and the First World War Such shifts became especially evident in films set along the Mexican and Canadian borders as filmmakers explored how these changes simultaneously represented and influenced views of society at large *Borderland Films* examines the intersection of North American borderlands and culture as portrayed through early twentieth century cinema Drawing on hundreds of films Dominique Brégent-Heald investigates the significance of national borders the ever changing concepts of race gender and enforced boundaries the racialized ideas of criminality that painted the borderlands as unsafe and in need of control and the wars that showed how international conflict significantly influenced the United States relations with its immediate neighbors *Borderland Films* provides a fresh perspective on American cinematic cultural and political history and on how cinema contributed to the establishment of societal narratives in the early twentieth century      [The Scotch-Irish Influence on Country Music in the Carolinas: Border Ballads, Fiddle Tunes and Sacred Songs](#) Michael C. Scoggins, 2013-05-14 Country music in the Carolinas and the southern Appalachian Mountains owes a tremendous debt to freedom loving Scotch Irish pioneers who settled the southern backcountry during the eighteenth and nineteenth centuries These hardy Protestant settlers brought with them from Lowland Scotland Northern England and the Ulster Province of Ireland music that created the essential framework for old time string band music From the cabins of the Blue Ridge and Great Smoky Mountains to the textile mills and urban centers of the Carolina foothills this colorful passionate heartfelt music transformed the culture of America and the world and laid the foundation for western swing bluegrass rockabilly and modern country music Author Michael Scoggins takes a trip to the roots of country music in the Carolinas      **The Border Papers** Great Britain. Schneider, Helen M. Ingram, 2012-02-01 Public policy in the United States is marked by a contradiction between the American ideal of equality and the reality of an underclass of marginalized and disadvantaged people who are widely viewed as undeserving and incapable *Deserving and Entitled* provides a close inspection of many different policy arenas showing how the use of power and the manipulation of images have made it appear both natural and appropriate that some target populations benefit from policy while others do not These social constructions of deservedness and entitlement unless challenged become amplified over time and institutionalized into permanent lines of social economic and political cleavage The contributors here express concern that

too often public policy sends messages harmful to democracy and contributes significantly to the pattern of uneven political participation in the United States

**At the Edges of States** Michael Eilenberg, 2012-01-01 Set in West Kalimantan Indonesian Borneo this study explores the shifting relationships between border communities and the state along the political border with East Malaysia The book rests on the premise that remote border regions offer an exciting study arena that can tell us important things about how marginal citizens relate to their nation state The basic assumption is that central state authority in the Indonesian borderlands has never been absolute but waxes and wanes and state rules and laws are always up for local interpretation and negotiation In its role as key symbol of state sovereignty the borderland has become a place where central state authorities are often most eager to govern and exercise power But as illustrated the borderland is also a place where state authority is most likely to be challenged questioned and manipulated as border communities often have multiple loyalties that transcend state borders and contradict imaginations of the state as guardians of national sovereignty and citizenship
