Daily Lives and Daily Routines in the Long Eighteenth Century Gudrun Andersson,Jon Stobart,2021-08-12 This book explores the ways in which the lives and routines of a wide range of people across different parts of Europe and the wider world were structured and played out through everyday practices It focuses on the detail of individual lives and how these were shaped by spaces and places by movement and material culture both the buildings they occupied and the objects they used in their everyday lives Drawing on original research by a range of established and emerging scholars each chapter peers into the lives of people from various social groups as they went about their daily lives from citizens on the streets to aristocrats at home in their country houses and from the urban elite at leisure to seamen on board ships bound for the East Indies For all these people daily routines were important in structuring their lives giving them a rhythm that was knowable and meaningful in its temporal regularity be that daily weekly or seasonal So too were their everyday encounters and relationships with other people within and beyond the home these shaped their practices movements and identities and thus served to mould society in a broader sense

The Culture of the Babylonian Talmud Jeffrey L. Rubenstein,2005-08-17 In this pathbreaking study Jeffrey L Rubenstein reconstructs the cultural milieu of the rabbinic academy that produced the Babylonian Talmud or Bavli which quickly became the authoritative text of rabbinic Judaism and remains so to this day Unlike the rabbis who had earlier produced the shorter Palestinian Talmud the Yerushalmi and who had passed on their teachings to students individually or in small and informal groups the anonymous redactors of the Bavli were part of a large institution with a distinctive isolated and largely undocumented culture The Culture of the Babylonian Talmud explores the cultural world of these Babylonian rabbis and their students through the prism of the stories they included in the Bavli showing how their presentation of earlier rabbinic teachings was influenced by their own values and practices Among the topics explored in this broad ranging work are the hierarchical structure of the rabbinic academy the use of dialectics in teaching the functions of violence and shame within the academy the role of lineage in rabbinic leadership the marital and family lives of the rabbis and the relationship between the rabbis and the rest of the Jewish population This book provides a unique and new perspective on the formative years of rabbinic Judaism and will be essential reading for all students of the Talmud Michael Satlow Brown University
