A History of the Mishnaic Law of Purities, Part 4 Jacob Neusner, 2007-04-01 The history of Jews from the period of the Second Temple to the rise of Islam From A History of the Mishnaic Law of Appointed Times Part 1 This volume introduces the sources of Judaism in late antiquity to scholars in adjacent fields such as the study of the Old and New Testaments Ancient History the ancient Near East and the history of religion In two volumes leading American Israeli and European specialists in the history literature theology and archaeology of Judaism offer factual answers to the two questions that the study of any religion in ancient times must raise The first is what are the sources written and in material culture that inform us about that religion The second is how have we to understand those sources in reconstructing the history of various Judaic systems in antiquity The chapters set forth in simple statements intelligible to non specialists the facts which the sources provide Because of the nature of the subject and acute interest in it the specialists also raise some questions particular to the study of Judaism dealing with its historical relationship with nascent Christianity in New Testament times The work forms the starting point for the study of all the principal questions concerning Judaism in late antiquity and sets forth the most current critical results of scholarship A History of the Mishnaic Law of Purities, Volume 4: Ohalot Jacob Neusner, 2024-12-16

Nso and Its Neighbours. Readings in the Social History of the Western Grassfields of Cameroon Bongfen Chem-Langhëë, Verkijika G. Fanzo, 2011 This is a rich and compelling volume of readings in social history on Nso and its neighbours in the Western Grassfields of Cameroon It consists of 19 essays by some of the leading historians archeologists and ethnographers of the region with seminal contributions by Jean Pierre Warnier Paul Nchoji Nkwi Bongfen Chem Langhee Phyllis Kaberry E M Chilver Miriam Goheen Ian Flower Dan Lantum and V G Fanzo The book covers a broad range of themes from precolonial times to date including trade alliances diplomacy the iron industry colonial impact continuities discontinuities and compromise general persistence ideology and conflict Warnier draws on linguistic and archaeological data to argue that this region has been settled for several millennia very probably continuously and that its landscapes are very ancient and have resulted from many human and natural forces other than the simple clearance of the forest cover of the region at an

uncertain date as some authors have postulated Using data on inter group diplomacy and alliances Nkwi puts into question some problematic theses on persistence hostilities and enhances knowledge of the precolonial history of the region Fowler and Chem Langhee show how local conditions and needs fostered the spirit and practice of cooperative ventures in the precolonial period which provided the driving force and the ideological and structural underpinnings for the successful and smooth introduction of modern modes of cooperation in the area during the colonial and postcolonial periods The rest of the studies have a unifying theme or thesis namely that despite the entry and assault of external influences particularly those associated with colonialism Christianity and Islam the traditional institutions customs and value systems of the Nso and their neighbours have resisted major change and their total corrosion is not yet in sight The volume illustrates the proposition that historical research is a continuous process of rediscovery which provides new questions and also that the evidence of other disciplines linguistics archaeology and palaeobotany for example may give rise to many new lines of inquiry and help to correct the documentary record and explain oral tradition Herein lies the most important element of this experimental collection Its editors hope that it will provoke other similar collections
