**A Literary History of the American West** Western Literature Association (U.S.), 1987 Literary histories of course do not have a reason for being unless there exists the literature itself This volume perhaps more than others of its kind is an expression of appreciation for the talented and dedicated literary artists who ignored the odds avoided temptations to write for popularity or prestige and chose to write honestly about the American West believing that experiences long known to be of historical importance are also experiences that need and deserve a literature of importance

**Georgian Trick Riders in American Wild West Shows, 1890s-1920s** Irakli Makharadze, 2015-03-30 In 1893 Georgian horsemen from the Caucasus immigrated to the United States where for more than 30 years they performed in circuses and Wild West shows under the billing of Russian Cossacks The connection between Buffalo Bill Cody and the Georgian trick riders represents one of the earliest relationships between Georgia and the United States Western historian Dee Brown wrote Trick riding came to rodeo by way of a troupe of Cossack daredevils imported by the 101 Ranch Intrigued by the Cossacks stunts on their galloping horses western cowboys soon introduced variations to American rodeo This is the story of the men who came in search of financial support for their families in Georgia and without knowing it influenced an essential fixture of American culture

*Frederic Remington and the West* Ben Merchant Vorpahl, 2014-01-09 Frederic Remington and the West sheds new light on the remarkably complicated and much misunderstood career of Frederic Remington This study of the complex relationship between Remington and the American West focuses on the artist s imagination and how it expressed itself Ben Merchant Vorpahl takes into account all the dimensions of Remington s extensive work from journalism to fiction sculpture and painting He traces the events of Remington s life and makes extensive use of literary and art criticism and nineteenth century American social cultural and military history in interpreting his work Vorpahl reveals Remington as a talented sensitive and sometimes neurotic American whose work reflects with peculiar force the excitement and distress of the period between the Civil War

and the Spanish American War Remington was not a western artist in the conventional sense neither was he a historian he lacked the historian's breadth of vision and discipline expressing himself not through analysis but through synthesis Vorpahl shows that even while Remington catered to the sometimes maudlin sometimes jingoistic tastes of his public and his editors his resourceful imagination was at work devising a far more demanding and worthwhile design a composite work executed in prose pictures and bronze This body of work as the author demonstrates demands to be regarded as an interrelated whole Here guilt shame and personal failure are honestly articulated and death itself is confronted as the artist's chief subject Because Remington was so prolific a painter sculptor illustrator and writer and because his subjects techniques and media were so apparently diverse the deeper continuity of his work had not previously been recognized This study is a major contribution to our understanding of an important American artist In addition Vorpahl illuminates the interplay between history artistic consciousness and the development of America's sense of itself during Remington's lifetime

Russian Subjects Monika Greenleaf, Stephen Moeller-Sally, 1998 This collection of essays resituates poetic works by Derzhavin Krylov Batisushkov Pushkin Girboedov Lermontov Baratynsky and Pavlova within the force fields of contradictory cultural pressures as are the once best selling prose narratives of Nareznyi Karamzin Viazemsky and others

**Next-Generation Memory and Ukrainian Canadian Children's Historical Fiction** Mateusz Świetlicki, 2023-03-24 This is the first book monograph devoted to Anglophone Ukrainian Canadian children's historical fiction published between 1991 and 2021 It consists of five chapters offering cross sectional and interdisciplinary readings of 41 books novels novellas picturebooks short stories and a graphic novel The first three chapters focus on texts about the complex process of becoming Ukrainian Canadian showcasing the experiences of the first two waves of Ukrainian immigration to Canada including encounters with Indigenous Peoples and the First World War Internment The last two chapters are devoted to the significance of the cultural memory of the Holodomor the Great Famine of 1932 1933 and the Second World War for Ukrainian Canadians All the chapters demonstrate the entanglements of Ukrainian and Canadian history and point to the role Anglophone children's literature can play in preventing the symbolical seeds of memory from withering This volume argues that reading imagining and reimagining history can lead to the formation of beyond textual next generation memory Such memory created through reading is multidimensional as it involves the interpretation of both the present and the past by an individual whose reality has been directly or indirectly shaped by the past over which they have no influence Next generation memory is of anticipatory character which means that authors of historical fiction anticipate the readers both present day and future not to have direct links to any witnesses of the events they discuss and to have little knowledge of the transcultural character of the Ukrainian Canadian diaspora
