## **Tiger Attacks:**

**Tiger Attack** Lisa Owings, 2011-08-01 Tigers retract their claws but never their fury Surprise them when they are eating or sleeping and you'll likely become the meal and be put to sleep permanently When it comes to the orange and black beast that is the tiger it's best to show respect by keeping your distance You sure don't want to be part of an attack story like those described in this book

**Tiger Attacks** Suzanne J. Murdico, 2000 These accounts of grisly attacks by vivacious animals on humans tell one of the horrifying sides to our relationship with the animal world Each book contains facts about animal behavior habitats territory and hunting techniques

**Environmental History in the Pacific World** J.R. McNeill, 2022-03-01 This volume brings together a set of key articles from the last 30 years pertaining to the environmental history of the Pacific basin It aims to treat the islands and waters of the Pacific as well as the lands around the Rim from New Zealand to Japan to California to Chile and is the first work of environmental history to take this inclusive view of the Pacific basin The focus is mainly on recent centuries but as environmental history requires at times the work also takes the very long view of millennia Several of the articles seek to bring a broad Pacific perspective to bear on their subjects while others use Pacific basin examples to try to establish broader theoretical points of interest to all who are drawn to the study of the interactions between nature and culture The book includes a bibliography of Pacific basin environmental history and an introduction that aims to sketch the contours and possible future directions of the field

**Rethinking Environmental History** Alf Hornborg, John Robert McNeill, Juan Martínez Alier, 2007 This exciting new reader in environmental history provides a framework for understanding the relations between ecosystems and world systems over time Alf Hornborg has brought together a group of the foremost writers from the social historical and geographical sciences to provide an overview of the ecological dimension of global economic processes with a long term historical perspective Readers are challenged to integrate studies of the Earth system with studies of the World system and to reconceptualize human environmental relations and the challenges of global sustainability Immanuel Wallerstein renowned Yale sociologist and originator of the world system concept closes the volume with his reflections on the intellectual moral and political implications of global environmental change
