Sustainable Synergy: A Digital Framework for the Water-Energy-Food Nexus Project Delivery in Developing Economies Love Opeyemi David, Clinton Aigbavboa, Nnamdi Nwulu, Omoseni Oyindamola Adepoju,2024-12-05 This book introduces a comprehensive and sustainable project delivery framework tailored for managing

the Water Energy and Food WEF nexus in developing economies Its primary objectives include establishing the determinants of the nexus exploring the sustainability dynamics of the resources delineating the role of digital technologies in WEF nexus projects evaluating the interoperation of the three resources with sustainable development goals SDGs and subsequently formulating a sustainable project delivery framework Timely in its release the book provides essential policy directions and technological perspectives within the realms of sustainability Water energy and food WEF resources constitute vital components pivotal for a nation s socio economic development and fundamental for human survival due to their intricate interdependencies Recognizing their paramount importance the World Economic Forum underscores their role in a country s growth trajectory However the sustainable management of WEF resources in the era of the Fourth Industrial Revolution necessitates an integrative framework for project delivery Unfortunately a significant gap exists in understanding the determinants of the nexus between water energy and food resources resulting in insecurity in their management Compounding this challenge the emergence of new technologies in the fourth industrial revolution has not received adequate consideration for ensuring resource security The book adopts a meticulous approach conducting an in depth review of existing models frameworks and theories Furthermore it supplements this analysis with an insightful interview case study Notably this pioneering work distinguishes itself as the first to view WEF resources as interconnected nexus projects with a keen acknowledgment of the indispensable role played by digital technology Moreover its targeted focus on addressing the unique challenges prevalent in developing economies adds a layer of specificity often absent in existing literature on the WEF nexus Researchers seeking a deeper understanding of the integration between the WEF nexus and digital technologies will find substantial value in the contents of this book The book is divided into five sections providing a systematic exploration of the subject The sections cover background information on WEF resources and its nexus underpinning theories of resource interaction theoretical frameworks relevant to the nexus the role of digital technologies in managing the WEF nexus interoperation of sustainability and SDG with the nexus presentation of an in depth case study and conclude with valuable insights and recommendations

Circular Economy Günther Dobrauz-Saldapenna, Nicolas Huras, 2023-11-02 Every leaf that falls from a tree becomes part of a new circle In non human ecosystems everything is re used or re purposed The natural world is the perfect circular system Why is the same not true for humankind Most of the things we possess will ultimately not be used for a long period of time The current take make waste approach is a given fact of our present economy that we have perfected since the industrial revolution The editors Dr Guenther Dobrauz Saldapenna and Nicolas Huras believe that we urgently need to change our ways of producing consuming and living It is time to seriously consider circular economy as an alternative model This book brings together thinkers and innovators from academia as well as business who share their ideas Does it deliver answers to all our challenges Probably not but it is a great place to start The future must be circular and decentralized This book was printed according to the Cradle to Cradle principle The dust jacket contains flower seeds and

can be planted in the ground watch the flowers grow *The Circular Economy in Europe* Zora Kovacic, Roger Strand, Thomas Völker, 2019-11-07 The Circular Economy in Europe presents an overview and a critical discussion on how circularity is conceived imagined and enacted in current EU policy making In 2013 the idea of a circular economy entered the stage of European policy making in the efforts to reconcile environmental and economic policy objectives In 2019 the European Commission declared in a press release that the Circular Economy Action Plan has been delivered The level of circularity in the European economy however has remained the same Bringing together perspectives from social sciences environmental economics and policy analysis The Circular Economy in Europe provides a critical analysis of policies and promises of the next panacea for growth and sustainability The authors provide a theoretical and empirical basis to discuss how contemporary societies conceive their need to re-organise production and consumption and explores the messy assemblage of institutions actors waste streams biophysical flows policy objectives scientific disciplines values expectations promises and aspirations involved This book is essential reading for all those interested in understanding how ideas about the circular economy emerged historically how they gained traction and are used in policy processes and what the practical challenges in implementing this policy are *Great Ideas for Teaching Economics* Ralph T.
