Sinistres Augures:

The principal speeches of the statesmen and orators of the French revolution 1789-1795 Henry Morse Stephens, 2025-09-19 Reprint of the original first published in 1892 Tome 1 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage , **The Principal Speeches of the Statesmen and Orators of the French Revolution, 1789-1795** Henry Morse Stephens, 1892 *Œuvres Complètes ... Traduites Par Javelin Pagnon. Précédées D'une Vie de Chatterton Par A. Callet* Thomas Chatterton, 1839 **Deux Jurés Du Tribunal Révolutionnaire** Alphonse Dunoyer, 1909 **The First Voyage Round the World by Magellan** Antonio Pigafetta, Though Magellan's enterprise was the greatest ever undertaken by any navigator yet he has been deprived of his due fame by the jealousy which has always existed between the two nations inhabiting the Peninsula the Spaniards would not brook being commanded by a Portuguese and the Portuguese have not yet forgiven Magellan for having abandoned them to serve Castile But Magellan really had no choice for if the western passage which he expected to discover was to be sought for it could only be under the auspices of Spain within whose demarcation those waters lay It would seem that D Manuel had only himself to blame for the loss of Magellan's services and as M Amoretti well observes D Manuel ought to have been well aware of the value of those services since Charles V knew it and showed his appreciation of them It is difficult to believe that the injury of which Magellan complained and which led him to seek other service was merely as Osorio says the refusal of promotion in palace rank and which he had well deserved especially since the motive ascribed by Osorio to the king's refusal namely the necessity of avoiding a bad precedent was not alone a sufficient affront to account for Magellan's sacrificing all his hopes and property in his own country had he not also felt that the king was condemning him to inaction obscurity and uselessness Barros indeed says that The favours of princes given for services are a retributive justice which must be observed equally with all with regard to the quality of each man and that if a man's portion be denied him though he endures it ill yet he will have patience but if he see the advancement of those who have profited more by artifice and friends than by their own merits he loses all patience indignation hatred and despair arise and he will commit faults injurious to himself and others And what outraged Magellan more than the refusal of the half ducat a month was that some men who were with him at Azamor said that his lameness was feigned to support his petition The king moreover refused to receive Magellan and showed his ill will against him It is therefore highly probable that before Magellan took the step of leaving Portugal D Manuel prompted by his niggardly disposition had refused to entertain Magellan's desire for employment at sea or his projects of discovery from which no immediate profit was to be expected This is apparent from the statement of Barros Decad iii lib v cap viii that letters of Magellan to Francisco Serrano were found after the death of the latter in Maluco in which Magellan said that he should soon see him and if it were not by way of Portugal it would be by way of Castile and that Serrano should therefore

wait for him there Further on Barros says that recourse to Castile appears from these letters to have been in Magellan's mind some time before the occurrence of the king's dismissal of his business and that this was shown by his always associating with pilots and occupying himself with sea charts The Portuguese exaggerated very much the injury they expected to result and later which they thought had resulted from Magellan's voyage which could not change the position of the Moluccas nor consequently the Portuguese title to them but the apprehensions which they felt arose from their fear of others sharing in the spice trade and from the limited geographical knowledge of the period which left both parties very much in doubt as to the true position of those islands or as to the extent of the circumference of the globe The question of the exact position of the Moluccas was not definitely ascertained till much later though a compromise was arrived at in 1529 by the treaty between Spain and Portugal by which Charles V gave up whatever rights to the Moluccas he imagined he possessed to Portugal for a sum of three hundred and fifty thousand ducats As late as 1535 Gaspar Correa mentions tom iii p 661 a Dominican friar in Portuguese India who was learned in cosmography and who asserted that the Moluccas fell within the demarcation of Castile The grounds of complaint of the Portuguese against Magellan are perhaps best expressed and in the strongest terms by Bishop Osorio so it may be well to quote from him the following passage Lib xi 23 About this time a slight offence on the part of the king D Manuel so grievously exasperated the mind of a certain Portuguese that forgetful of all faith piety and religion he hastened to betray the king who had educated him and the country which had brought him forth and he risked his life amongst the greatest perils Ferdinand Magellan of whom we have before spoken was a man of noble birth and endued with a high spirit He had given proofs in India in warlike affairs of courage and perseverance in no small degree Likewise in Africa he had performed his duties with great ardour Formerly it was the custom among the Portuguese that the king's servants should be fed in the palace at the king's expense but when the number of these servants had become so great because the sons of the king's officers retained the same station and besides many were admitted for their services into the king's household it was seen to be very difficult to prepare the food of such a multitude On this account it was determined by the Kings of Portugal that the food which each man was to receive in the palace should be provided by himself out of the king's money Thus it was settled that a certain sum of money was assigned per month to each man That money indeed when provisions were so cheap provided abundantly for the men but now that the number of men and the prices of commodities had increased it happened that the sum which formerly was more than sufficient for their daily expenses was now much too small Moreover as all the dignity of the Portuguese depends upon the king this small sum of money is as eagerly sought after as though it were much more ample And as the Portuguese think that the thing most to be desired is to be enrolled amongst the king's household so also they consider the greatest honour to consist in an increase of this stipend For as there are various ranks of king's servants so the sum of money is assigned to each servant according to the dignity of his rank The highest class is that of nobleman but as there are distinctions of nobility so an equal salary is not given to all Thus it happens

that the nobility of each is estimated according to the importance of this stipend and each one is held to be more noble in proportion to the more ample stipend which he receives This judgment indeed as human affairs go is often most false for many obtain through ambition and pertinacity what ought to be assigned to deserts and innate nobleness The Portuguese however since they are over anxious in seeking this nobility and imagine that their nobility is increased by a small accession of salary very often think that they must strive for this little sum of money as though all their well being and dignity depended upon it Now Magellan contended that for his services his stipend should be increased monthly by half a ducat The king refused it him lest an entrance should be opened to ambitious persons Magellan excited by the injury of the refusal of this advantage to him at that time abandoned the king broke his faith and brought the State into extreme danger And whilst we ought to tolerate the injuries inflicted by the State and to endure also the outrages of kings who are the fathers of the republick and whilst we ought to lay down our lives for the well being of our country which lives we owe to our country this most audacious man conceived such despite on account of half a ducat amounting to five denarii which was refused to him that he opposed the State he offended the king who had brought him up and brought his country for which he should have died into peril For the affair reached such a pitch that the danger of a perilous war impended over the commonwealth I do not know indeed whence so barbarous a custom has crept into the State for whilst the name of a traitor is not only hateful and hated but also burns in the stain of everlasting dishonour upon a whole posterity yet men who determine upon breaking their faith and opposing their kings or states may reject the favours they have received by formal letters may abjure their fealty and despoil themselves of the rights and duties of the State they bid the king keep for himself that which belongs to him and they attest that thenceforward they will have nothing in common with their country then at length they contend that it is allowable for them to commence war against their country Be it so reject favours if it please you contemn the liberality of your country grumble as much as you please that a reward equal to your dignity has not been granted But by what means can you betray the faith which you have plighted My country has inflicted on me a severe outrage it has inflicted indeed the worst But an outrage is not to be avenged either upon parents or upon one s country I have abandoned he says all that I had received from my country Have you then rejected life disposition and education By no means But all these things you received them in the first place from God and then from the laws customs and institutions of your country It will never be allowable to combat nature to injure your country or to break faith even should you be laden with every injury Nay your life should be given up and the most extreme punishments should be undergone sooner than break your faith or betray your duty Abjure fealty as much as you please attest your perfidy by public letters leave to posterity a notable memory of unspeakable wickedness yet you will not be able by any such document to avoid offending the Deity nor the stain of an everlasting opprobrium

Caligula Et Camus Sophie Bastien,2006 Alors que le th tre d Albert Camus re oit de plus en plus de consid ration de la part des universitaires cet ouvrage se consacre la meilleure pi ce camusienne Caligula Il en propose une analyse

structurelle pour en faire ressortir toute la matérialité et définir les rapports complexes que celle-ci entretient avec la folie et le politique. Il cerne ainsi dans leur interaction les motifs qui sont au cœur de l'œuvre. De plus, il établit des liens aussi riches que variés avec des textes historiographiques et des œuvres phares de la littérature occidentale qui y figurent le personnage si puissant qu'est Caligula. En somme, il situe la pièce sur le triple plan d'une tradition philosophique et littéraire qui remonte à l'Antiquité du renouveau théâtral qui marque le milieu du XXe siècle et de la production de Camus dans son ensemble. Il interrogera étudiants et professeurs qui se penchent sur la littérature française du XXe siècle aussi bien que sur d'autres littératures puisque par le biais camusien il traite de la tragédie grecque de Shakespeare de Melville de Pirandello. Il s'adresse plus spécialement ceux qui étudient le théâtre que ce soit dans une perspective historique thématique ou esthétique.

Mostly French Alistair Rolls, 2009. This book which was inspired by a conference on plural conjugations of Frenchness La France au pluriel held in 2007 at the Universities of Technology Sydney and Newcastle focuses on the concept of national belonging as it pertains to detective fiction with particular emphasis on French and Australian detective fictions and the encounter and crossing over between them. The objective is not only to use the concepts of French and Australian detective fiction productively via the analysis of French and Australian detective fiction novels but also to challenge and undermine the very notion of national detective fictions which are so often assumed to be transparently meaningful. The contributors to this volume focus variously on the following areas: comparative analysis of the genesis of French and Australian detective fiction; translation of Australian and other novels into French; translation as a genre; Frenchness as a stereotype; its role in individual novels and its spectre in all detective fiction; and readings of individual French and Australian detective novels. Overall, this book aims to challenge assumptions about French detective fiction, its influence on other national fictions, and its explicit and implicit presence in all detective fiction.
