Situation Comedy Humor In Recent Art:

Situation Comedy Dominic Molon, 2005 Admit it you've sometimes wanted to laugh at contemporary art. During the past decade, humor has turned up with increasing frequency in galleries and museums, perhaps as an acknowledgment of the urgent need among artists and audiences alike to laugh at the absurdity of daily existence and the art world itself. Situation Comedy presents more than 60 works, a selection of video and sound installations, paintings, sculptures, drawings, and photographs by younger as well as more established artists, including Tom Friedman, Rodney Graham, Christian Jankowski, Laura Nova, William Pope L., Richard Prince, Kay Rosen, Erika Rothenberg, John Waters, and Erwin Wurm. Employing parody, satire, slapstick, and practical jokes, they use the leveling power of comedy to break down barriers of taste and to question authority at every turn. *Humor in Global Contemporary Art* Mette Gieskes, Gregory H. Williams, 2024-05-30 Pursuing a new and timely line of research in world art studies, *Humor in Global Contemporary Art* is the first edited collection to examine the role of culturally specific humor in contemporary art from a global perspective. Since the 1960s, increasing numbers of artists from around the world have applied humor as a tool for observation, critique, transformation, and debate. Exploring how humorous art produced over the past six decades is anchored in local sociopolitical contexts and translated or misconstrued when exhibited abroad, this book opens new conversations regarding the functioning of humor and the ways in which art travels across the globe. With contributions by an impressive array of internationally based scholars covering six major continental regions, the book is organized into four distinct geographical sections: Africa and the Middle East, Asia and Oceania, South and North America, and Europe. This structure highlights the cultural specificity of each region, while the book as a whole offers a critical perspective on the postcolonial, globalized art network. Reflecting on present-day processes of globalization and biennialization, which confront viewers with humorous art from a variety of cultures and countries, this book will provide readers with a culturally sensitive understanding of how humor has become vital to many contemporary artists working in an unprecedentedly interconnected world. [Encyclopedia of Humor Studies](#) Salvatore Attardo, 2014-02-25 The *Encyclopedia of Humor: A Social History* explores the concept of humor in history and modern society in the United States and internationally. This work's scope encompasses the humor of children, adults, and even nonhuman primates throughout the ages, from crude jokes and simple slapstick to sophisticated word play and ironic parody and satire. As an academic social history, it includes the perspectives of a wide range of disciplines, including sociology, child development, social psychology, life style history, communication, and entertainment media. Readers will develop an understanding of the importance of humor as it has developed globally throughout history and appreciate its effects on child and adult development, especially in the areas of health, creativity, social development, and imagination. This two-volume set is available in both print and electronic formats. Features: Benefits: The General Editor also serves as Editor in Chief of *HUMOR International Journal of Humor Research* for The International Society for Humor Studies. The book's 335 articles are organized in A to Z fashion in two volumes.

approximately 1 000 pages This work is enhanced by an introduction by the General Editor a Foreword a list of the articles and contributors and a Reader s Guide that groups related entries thematically A Chronology of Humor a Resource Guide and a detailed Index are included Each entry concludes with References Further Readings and cross references to related entries The Index Reader s Guide themes and cross references between and among related entries combine to provide robust search and browse features in the electronic version This two volume A to Z set provides a general non technical resource for students and researchers in such diverse fields as communication and media studies sociology and anthropology social and cognitive psychology history literature and linguistics and popular culture and folklore
