Tau't Batu Studies Jesus T. Peralta, 1983      AUSTRONESIAN DIASPORA Bagyo Prasetyo, Titi Surti Nastiti, Truman Simanjuntak, 2021-01-28 This book is a proceeding from a number of papers presented in The International Symposium on Austronesian Diaspora on 18th to 23rd July 2016 at Nusa Dua Bali which was held by The National Research Centre of Archaeology in cooperation with The Directorate of Cultural Heritage and Museums The symposium is the second event with regard to the Austronesian studies since the first symposium held eleven years ago by the Indonesian Institute of Sciences in cooperation with the International Centre for Prehistoric and Austronesia Study ICPAS in Solo on 28th June to 1st July 2005 with a theme of the Dispersal of the Austronesian and the Ethno geneses of People in the Indonesia Archipelago that was attended by experts from eleven countries The studies on Austronesia are very interesting to discuss because Austronesia is a language family which covers about 1200 languages spoken by populations that inhabit more than half the globe from Madagascar in the west to Easter Island Pacific Area in the east and from Taiwan Micronesia in the north to New Zealand in the south Austronesia is a language family which dispersed before the Western colonization in many places in the world The Austronesian dispersal in very vast islands area is a huge phenomenon in the history of humankind Groups of Austronesian speaking people had emerged in ca 7000 6000 BP in Taiwan before they migrated in 5000 BP to many places in the world bringing with them the Neolithic Culture characterized by sedentary agricultural societies with animal domestication The Austronesian speaking people are distinguished by Southern Mongoloid Race which had the ability to adapt to various types of natural environment that enabled them to develop through space and time The varied geographic environment where they lived as well as intensive interactions with the outside world had created cultural diversities The population of the Austronesian speakers is more than 380 million people and the Indonesian Archipelago is where most of them develop Indonesia also holds a key position in understanding the Austronesians For this reason the Austronesian studies are crucial in the attempt to understand the Indonesian societies in relation to their current cultural roots history and ethno genesis This book discusses six sessions in the symposium The first session is the prologue the second is the keynote paper which is Austronesia an overview the third is Diaspora and Inter regional Connection the fourth is Regional highlight the fifth is Harimau Cave Research Progress while the sixth session is the epilogue which is a synthesis of 37 papers We hope that this book will inspire more researchers to study Austronesia a field of never ending research in Indonesia      **Uncultural Behavior** Charles J-H Macdonald, 2006-10-31 Until recently the people of Kulbi Kenipaqaan lived on the fringes of the modern world following traditional customs and beliefs practicing shifting agriculture and leading an outwardly peaceful existence in a remote corner of Palawan island Yet this small community basically indistinguishable in society and culture from its immediate neighbors to the north has one of the highest rates of suicide in the world Why would the comparatively happy and well off inhabitants of Kulbi fall victim to despair Uncultural Behavior investigates the mystery of self inflicted death

among this nonviolent and orderly people in the Southern Philippines To make sense of such a phenomenon Charles Macdonald probes the beliefs customs and general disposition of this Palawan people exploring how they live think behave and relate to one another Early chapters examine group formation and the spatialization of social ties material culture marriage and law providing an extensive ethnographic account of the Kulbi way of life The author offers insights into the spiritual world of the community and addresses the local theory of emotions and the words that supply the vocabulary and idiom of indigenous commentaries on suicide A well documented case study of a suicide and its aftermath gives readers an idea of how Kulbi people treat suicide and their conflicting views on the subject Following an analysis of statistical information the author presents five profiles bringing together motivations actors and circumstances He concludes by examining the perspectives of neurobiology and genetics as well as psychology sociology and history
