Taxation And Economic Development In Taiwan Harvard Studies In International Development:

Taxation and Economic Development in Taiwan Glenn P. Jenkins, Chun-Yan Kuo, Kenan Sun, 2003 Documenting the evolution of economic development and fiscal policies in Taiwan over the last four decades this work explores the effectiveness of specific tax and trade policies The authors make a major revision to the previously accepted role played by the export processing zones and the protection of domestic producers from foreign competition The extensive use of duty exemption systems enabled the government to create competition among the exporting firms and the innovative design of economic policies and administrative systems helped the private sector generate savings expand investments and promote exports This work analyzes how unique fiscal policies and administrative practices were designed to foster the rapid growth and development of Taiwan during this period

The Labour Market and Economic Development of Taiwan, 2007 Addresses three main issues how Taiwan's labour market worked so well prior to 1996 what factors can be attributed to the rapid deterioration of Taiwan's labour market performance since 1996 and the measures adopted by the Taiwan government in tackling the high unemployment rate This book also presents an integrated labour market model

Building a Modern Financial System David C. Cole, Betty F. Slade, 1996 Building A Modern Financial System provides penetrating insights into the upheavals in Indonesia and explains the kinds of policies that can lead to the development of a modern financial system in a large relatively underdeveloped country The study covers all facets of the financial system emphasising the role of the monetary authorities the transition from government dominated to a predominantly private banking system and the rapid expansion of the capital market Indonesia is a particularly interesting case because its economy and financial system was in shambles in the mid 1960s owing to political adventurism and economic mismanagement Until more recently sensible economic policies and growth promoting reforms provided a sound financial system and a balanced expansion of agriculture and industry However since the mid 1990s the stability of the Indonesian system has once again been called into question

Institutional Economics and National Competitiveness Young Back Choi, 2011-07-29 This book offers a strong contribution to the growing field of institutional economics going beyond the question of why institutions matter and examines the ways in which different types of institutions are conducive to the enhancement of competitiveness and economic development Adopting a variety of approaches ranging from New Institutional Economics Public Choice Constitutional Political Economy and Austrian Economics to more traditional economic approaches contributors examine the important issues of interest to development economics This book asks whether democracy is a pre condition for economic development what the proper role of government is in the age of globalization and whether successful government led policies were the cause of South Korea's economic development As well as these key questions the book

covers the issues of whether the government should rely on the market process to encourage economic development or must they interfere and by what criteria one can judge a proposal for policies for economic prosperity The book tries to make a contribution by introducing a variety of perspective some argue in favour of industrial policies while others argue for a lesser role for the government and a greater entrepreneurial freedom Some question the wisdom of promoting democracy as a necessary condition for economic development while others argue that political liberalization is the basis of lasting competitive edge of an economy The book should be of great interest to students and researchers in need of a multi perspective collection covering several approaches to the issues of institutional economics and national competition
