Chris Briggs

Taxpayers Of Medieval Gloucester:

The Taxpayers of Medieval Gloucestershire Peter Franklin, 1993 The bulk of the work consists of the full list of 9 000 names of Gloucestershire taxpayers from the year 1327 together with indices of their names and of the parishes where they lived

Commonwealth and the English Reformation Ben Lowe, 2017-03-02 Whilst much recent research has dealt with the popular response to the religious change ushered in during the mid Tudor period this book focuses not just on the response to broad liturgical and doctrinal change but also looks at how theological and reform messages could be utilized among local leaders and civic elites It is this cohort that has often been neglected in previous efforts to ascertain the often elusive position of the common woman or man Using the Vale of Gloucester as a case study the book refocuses attention onto the concept of commonwealth and links it to a gradual but long standing dissatisfaction with local religious houses It shows how monasteries endowed initially out of the charitable impulses of elites increasingly came to depend on lay stewards to remain viable During the economic downturn of the mid Tudor period when urban and landed elites refocused their attention on restoring the commonwealth which they believed had broken down they increasingly viewed the charity offered by religious houses as insufficient to meet the local needs In such a climate the Protestant social gospel seemed to provide a valid alternative to which many people gravitated Holding to scrutiny the revisionist revolution of the past twenty years the book reopens debate and challenges conventional thinking about the ways the traditional church lost influence in the late middle ages positing the idea that the problems with the religious houses were not just the creation of the reformers but had rather a long history In so doing it offers a more complete picture of reform that goes beyond head counting by looking at the political relationships and how they were affected by religious ideas to bring about change

The Self-contained Village? Christopher Dyer, 2007 These essays show how historical revisionism has overturned the view that English villages before industrialization had self sufficient economies and populations largely separated from the outside world Topics include demography migration agriculture inheritance politics employment industry and markets and covers such communities as Norfolk and Westmorland

Plantagenet England 1225-1360 Michael Prestwich, 2007 England of the Plantagenet kings was a turbulent place In politics it saw Simon de Montfort s challenge to the crown in Henry III s reign and it witnessed the deposition of Edward II By contrast and as relief it also experienced the highly successful rules of Edward I and his grandson Edward III Political institutions were transformed with the development of parliament and war the stimulus for some of that change was never far away Wales was conquered and the Scottish Wars of Independence started in Edward I s reign while Crecy and Poitiers were English triumphs under Edward III Beyond politics the structure of English society was developing from the great magnates at the top to the peasantry at the bottom Economic changes were also significant from the expansionary period of the thirteenth century to years of difficulty in the fourteenth culminating in the greatest demographic disaster of historical times the Black Death Embracing politics and government kingship the structure of society France

Scotland and Wales as well as areas such as the environment the management of the land crime and punishment Michael Prestwich's survey casts the Plantagenet past in a new and revealing light **BOOK JACKET** *The Surname Detective* Colin Rogers, 2024-07-30 From the author of *The Family Tree Detective* this guide provides the amateur genealogist or family historian with the skills to research the distribution and history of a surname Colin Rogers uses a sample of 100 names many of them common to follow the migration of people through the centuries Each of the 100 names is mapped since the Domesday book in 1086 For those whose name is not among the sample the book shows how to find out where namesakes live now how they moved around the country through time and how the name originated from a placename a nickname or an occupation Colin Rogers finishes this work by showing how the distribution of surnames can be studied irrespective of the size of the surrounding population and reaches some interesting conclusions about which names are more reliable guides to migration since the 14th century

A History of the County of Gloucester J. H. Chandler, A. R. J. Jurica, 2016 This volume describes the city of Gloucester from the late 7th century AD to the mid 1980s *Town and Countryside in Western Berkshire, C.1327-c.1600* Margaret Yates, 2007 A fresh examination of how society and economy changed at the end of the middle ages comparing urban and rural experience The traditional boundary between the medieval and early modern periods is challenged in this new study of social and economic change that bridges the fifteenth and sixteenth centuries It addresses the large historical questions what changed when and why through a detailed case study of western Berkshire and Newbury integrating the experiences of both town and countryside Newbury is of particular interest being a rising cloth manufacturing centre that had contacts with London and overseas due to its specialist production of kerseys The evidence comes from original documentary research and the data are clearly presented in tables and graphs It is a book alive with the actions of people famous men such as the clothier John Winchcombe known as Jack of Newbury but more notably by the hundreds of individuals such as William Eyston or Isabella Bullford who acquired property cultivated their lands or in the case of Isabella managed the mill complex after her husband's death

MARGARET YATES is Lecturer in History at the University of Reading [Peasants Making History](#) Christopher Dyer, 2022 *Peasants Making History* examines a peasant community in the English west midlands in the middle ages to understand how peasants lived interacted and made changes in their society in ways that have long been disregarded in scholarship [Transactions - Bristol and Gloucestershire Archaeological Society](#) Bristol and Gloucestershire Archaeological Society, 2003

Studies on the Personal Name in Later Medieval England and Wales David Postles, Joel Thomas Rosenthal, 2006 This volume contains collected papers on medieval England's names and naming patterns mostly forenames or Christian names but with some attention to family names According to Rosenthal there are three lines of assault upon the culture and practice by way of analysis of names and naming micro social or family dynamic village life and limited name stock that confronts us when we tally the range of names that served the bulk of the population *Taxation in Medieval England* Sydney Knox Mitchell, 1971 **Southern History**

,2009 **Local Population Studies** ,1998 **Credit and Village Society in Fourteenth-Century England** Chris Briggs,2009 Credit transactions were a common and important feature of peasant society in the middle ages This study of rural credit in medieval England uses the evidence of inter peasant debt litigation to investigate the lenders and borrowers the uses to which credit was put and the effects of credit on social relationships **The Cumulative Book Index** ,1995 A world list of books in the English language The Crabb Family Richard Dwight Prall,1997 The first Crabbs from England crossed the Atlantic in small wooden ships in the 17th century and settled in Massachusetts Virginia and Maryland This book presents American Crabbs from the Colonial Age to the present the first chapter discusses Crabbs in England Scotland Ireland and Canada Ralph Crab 1690 1734 married Priscilla Sprigg 1699 1763 in 1716 and lived in Maryland with a family of 9 children Includes the families of Smith Threlkeld Coons Greenfield Krebs and others **The English Medieval Town** Richard Holt,Gervase Rosser,1990 The aim of this reader one of a set of four volumes on urban history covering the late 12th to early 20th centuries is to gather together in an accessible form a number of key contributions to the study of the English medieval town **Archives & Local History in Bristol & Gloucestershire** J. H. Bettey,2007 **Medieval Southwark** Martha Carlin,1996 Southwark situated directly opposite the City of London at the southern end of London Bridge was London s first suburb Martha Carlin examines the urban development of medieval Southwark from its Roman origins She traces in detail Southwark s transformation from a semirural straggle of dwellings into a denselyinhabited community displaying such characteristically urban features as a diversified economy a stratified and heterogeneous society an excess of rubbish and a traffic problem This book is an important contribution to the study of medieval urban history Survey of Medieval Winchester Derek Keene,1985
