Module 3: Applying Analysis

In this module, you will review analytical strategies and create a writing plan using the elements of a critical analysis.

3-1 Reading: Preparing for Milestone 1: Writing Plan

Reading: Preparing for Milestone 1: Writing Plan

As you learned in previous modules, developing analysis skills is an important step in becoming a strong reader and writer. Your Writing Notes in Module One helped you to complete a literal reading analysis of your selected reading. In Module Two, you used active reading strategies to complete a deeper analysis of a sample text. Both of these activities will now help you engage in the process of critical analysis.

Critical analysis is the process of studying a text and evaluating the author's claim, also known as their main argument. When completing a critical analysis of a text, you look closely at what the author is saying and how they are saying it. You explore both the strengths and the weaknesses of the argument. Ultimately, your goal is to form an opinion or evaluation of the author's claim, and then present your analysis of the work in the form of a written essay. Critical analysis essays are written in the third person. Avoid using "I", "you", and "we".
