Teaching Reading and Writing Beyond High-stakes Testing Rongrong Dong,2023-03-10 This book tells about an exemplary high school Chinese language arts teacher's effort in nurturing lifelong readers and writers under the test driven culture in China's society. It looks closely at his everyday literacy practices, focuses on his ways of creating authentic reading and writing spaces for students beyond test preparation. With the lens of social constructivism, the case study reveals his efforts of creating a safe learning environment, modeling his literate life, connecting real life with literacy learning, and building a school-wide literate life for students. Furthermore, he also collaborates with other Chinese language arts faculty and reaches out to school administrators and educators to gain any potential teaching resource for students. The findings indicate exemplary teachers are not only equipped with professional knowledge but also inter-intrapersonal knowledge and practical knowledge in their teaching career, which might be enlightening in today's high-stakes testing culture. The book will appeal to scholars of literacy education and teacher education as well as pre-service and in-service teachers.

Writing about Reading Janet Angelillo,2003 Janet Angelillo introduces us to an entirely new way of thinking about writing about reading. She shows us how to teach students to manage all the thinking and questioning that precedes their putting pen to paper. More than that, she offers us smarter ways to have students write about their reading that can last them a lifetime. She demonstrates how students' responses to reading can start in a notebook, in conversation, or in a read-aloud, lead to thinking guided by literary criticism, reflect deeper text analysis, and honest writing processes result in a variety of popular genres: book reviews, author profiles, commentaries, editorials, and the literary essay. She even includes tools for teaching day-by-day units of study, teaching points, a sample minilesson, and lots of student examples, plus chapters on yearlong planning and assessment. Ensure that your students will be readers and writers long after they leave you. Get them enthused and empowered to use whatever they read—facts, statistics, the latest book—as fuel for writing in school and in their working lives. Read Angelillo.

Reading-Writing Connections Rui A. Alves, Teresa Limpo, R. Malatesha Joshi,2020-06-02 This book shows that reading writing is a two-way street that is burgeoning with research activity. It provides a comprehensive and updated view on reading writing connections by drawing on extant research and findings. It puts forward a new conception of literacy, one that establishes reading and writing connections as the primeval ground for building literacy science. It shows how an integrative view of literacy can have deep and lasting effects on conceptualizing literacy development in several orthographies and on improving literacy instruction and remediation worldwide. The book examines in detail such issues as modeling approaches to reading writing relations, literacy development, reading and spelling across orthographies, and integrative approaches to literacy instruction and remediation.

Teaching Reading and Writing with Word Walls Janiel M. Wagstaff,1999 Presents ideas for teaching children in grades K-3 phonics, spelling, and language conventions through the creation of word walls. Suggestions include an ABC wall, chunking wall, words we know wall, and help wall.
