Overview of Component 2

Overview

This document provides information about the Early Adolescence Through Young Adulthood/Career and Technical Education (EAYA/Career and Technical Education) Component 2 portfolio entry, instructions on how to develop and submit your evidence, and the scoring rubric used to assess your work.

Component 2: Differentiation in Instruction

This portfolio entry provides you with the opportunity to highlight your ability to evaluate learning strengths and needs for individual students; plan and implement appropriate differentiated instruction for those students; and analyze and modify instructional strategies and materials based on ongoing assessment. The tasks for all components and the rubrics used to assess candidate work have been developed in accordance with the Five Core Propositions and the certificate area Standards.

EAYA/Career and Technical Education Component 2 Portfolio Entry

In the EAYA/Career and Technical Education Component 2 portfolio entry:

- You select two assessments related to a career and technical education specialty area, drawn from different points in time and differing from one another in structure or form, that demonstrate your ability to tie assessment to learning goals.
- You select and submit the responses of two students to each of these assessments.
- You show how you use the results of assessments to evaluate students' understanding and skills, to inform your teaching, and to differentiate instruction for students.
- You submit a Written Commentary in which you describe, analyze, and evaluate the student work and reflect on your teaching practice.

EAYA/Career and Technical Education Standards Measured by Component 2

Because the purpose of the tasks in the portfolio components is to measure your teaching practice, the overall focus of the portfolio entry and rubrics is on your pedagogical knowledge and skills and how successfully you apply your knowledge and skills to advance student learning.
