The Meaning of Activities in the Dwelling and Residential Environment J. Meesters, 2009-04-28 The dwelling is a central setting in people's everyday life. People use their dwelling and residential environment for a large variety of activities and purposes. This book relates activities, settings, and meanings to improve the insight into people-environment relations, which is called a meaning structure approach.

The Dwelling Susie Moloney, 2010-12-10 FOR SALE Newly renovated single family home. New hardwood floors, all appliances, Bathroom, 3 bedrooms, unique decor. Must be seen. 362 Belisle Street is a homeowner's dream. Recently renovated Victorian detail. Good neighborhood. A steal at 95,900. Real estate agent Glenn Darnley wonders why this charming property keeps coming back on the market. Perhaps the clawed feet of the old bath tub look a little too real. Or maybe it's the faint hospital-like smell of the room at the end of the hall. Or the haunting music that seems to come from nowhere. Three families buy 362 Belisle, but no one stays there for long. For this dream house has a mind and a heart of its own. It's waiting patiently for its dream owner. Open the door to a spine-chilling novel of terror in which home is not where you live; it's where you hope to get out alive.
