## **The Road To Marriage:**

Stages on the Road Sigrid Undset, 2012-06-18 Sigrid Undset is among the great modern writers of the twentieth century and was an adult convert to Catholicism This forgotten treasure from the Nobel Prize winning author of Kristin Lavransdatter is a fascinating collection of saints lives a prophetic critique of modernity and a surprisingly contemporary take on being Catholic in particular a Catholic woman in a sometimes hostile secular world Stages on the Road is a series of essays about the relationship between the Church and the modern world In the spirit of G K Chesterton and C S Lewis Undset points to inconsistencies hypocrisies and blind spots of the modern secular mindset by introducing readers to the stories of somewhat forgotten Catholic figures like St Angela Merici and the English martyrs Margaret Clitherow and Robert Southwell people who stood fast to their faith in the face of both intellectual and political hostility Undset tackles such topics as religious freedom Christian Muslim relations and the vocation of women

**Sexuality and the Sacred, Second Edition** Marvin M. Ellison, Kelly Brown Douglas, 2010-09-21 Christian discourse on sexuality spirituality and ethics has continued to evolve since this book's first edition was published in 1994 This updated and expanded anthology featuring more than thirty contemporary essays includes more theologians and ethicists of color and addresses issues such as the intersection of race racism and sexuality transgender identity same sex marriage and reproductive health and justice

**New Approaches in History and Theology to Same-Sex Love and Desire** Mark D. Chapman, Dominic Janes, 2018-02-15 This book offers a range of interdisciplinary evaluations of the history of same sex relationships in the Church as they have been understood in different periods and contexts The relationships between diverse forms of religious and sexual identities have been widely contested in the media since the rise of the lesbian and gay liberation movement in the 1970s One of the key images that often appears in public debate is that of lesbians and gays in the Church as a significant problem Research over the past forty years or so into queer theology and the history of same sex desire has shown that such issues have played an important role in the story of Christianity over many centuries The contributors to this volume have all been inspired by the challenges of such revisionist study to explore religion and same sex desire as a field of opportunity for investigation and debate They uncover some of the hidden histories of the Church and its theologies they tell sometimes unexpected stories many of which invite serious further study It is quite clear through history that some in the churches have been at the vanguard of legislative and social change Similarly some churches have offered safe queer spaces Overall these essays offer new interpretations and original research into the history of sexuality that helps inform the contemporary debate in the churches as well as in the academy
