The Sacred Truth:

Elements of Sacred Truth John Abercrombie, 1844 *The Pilgrim Kamanita* Karl Gjellerup, 2023-04-11T18:26:55Z Late one night as he seeks shelter in a potter's entrance hall Kamanita meets an old ascetic Encouraged by the monk he relates the story of his life so far how born the son of an Indian merchant he follows in his father's footsteps how on his first trading trip he meets and loses his great love Vasitthi how he builds up a fortune and raises a family and how one day he leaves everything behind to set on a pilgrimage But the old monk is not who he seems and when Kamanita refuses to accept his teachings the consequences are startling and irreversible What follows is a colorful bewildering revelation filled journey through the past present and the Paradise of the West Sixteen years before Hermann Hesse published Siddharta there was another European writer who used Buddhism as a source of inspiration for a novel After earlier naturalistic works such as *Minna* and *Germanernes Lrning* *The German Apprentice* *The Pilgrim Kamanita* was a stylistic turning point for the Dane Karl Gjellerup It became a worldwide success and his subsequent novels would touch on Buddhism as well This book is part of the Standard Ebooks project which produces free public domain ebooks [The Sacred Truth](#) J. L. Long, 2016-09-29 The only failures in life are the mistakes you don't learn from It was only supposed to be casual Then I fell for her Falling head first in love only to have fear rip it out from underneath me I severed us with my destructive words Correcting all the mistakes I've made is what I have to do I just don't know how She does She always knows what to do However fate has a way of deciding things like this for us doesn't it *Departure of the Perfected One* Hermann Beckh, 2023-04-26 Presenting vivid pictures of Gautama Buddha's life teaching suffering death and subsequent nirvā the Mahāparinibbāna-sutta is one of the principal Buddhist texts In Hermann Beckh's words it describes one of the greatest human beings that ever lived who stood at the threshold of the super human a teacher and leader of humanity Prof Beckh's translation of this important sutta achieved a quality and faithfulness that was based on decades of extensive study and meditation From his academic and spiritual knowledge Beckh added insightful editorial material including an introduction commentary and notes The English rendering here by Indologist and long standing Buddhist practitioner Dr Katrin Binder is based on both the original Pāli and Beckh's German translation An afterword by Thomas Meyer informed by Rudolf Steiner's research traces the development of Buddha's individuality in the afterlife *Departure of the Perfected One* brings to a conclusion the publication of Beckh's great triad of works on the subject of Buddha including *Buddha's Life and Teaching* and *From Buddha to Christ* Through a contemporary reading these books open up vast new perspectives on the world of sacred Buddhist scriptures to anyone interested in spiritual development [The Four Gospels](#) Christoph Rau, 2024-04-16 When a theologian speaks of the widespread misconception nowadays that faith is an intellectual holding of what is possible they underpin a wretched reduction of faith Since the interest of New Testament studies shifted to philosophical details the word of the Bible was treated intellectually thus shaking the foundation of faith in many people Christoph Rau Could a deeper cause of today's myriad human troubles be

related to a dwindling or even nonexistent familiarity with the four New Testament Gospels of Matthew Mark Luke and John This is the view of Christoph Rau for whom today s prevailing approach to theological research which treats the ancient religious texts more as literary products than authentic records of spiritual experience is if anything a contributing factor in our modern alienation from the spirit In this book Rau presents the results of five decades of research demonstrating the independent structure of each of the four canonical Gospels Through clear analyses he illumines the distinctive stylistic features of each composition revealing the design principles through which the meaning and goal of each Gospel can be understood Beyond the intrinsic value of each Gospel the author draws on their special features to explain how the spiritual richness of the four written works is fully revealed only by considering the pre Christian religions because each of the evangelists describes the incarnation of the Son of God from the perspective of his own mystery religion Furthermore the author succeeds in showing that the Gospels despite their seeming contradictions are elements of a common organism This book is a translation from German of *Die Vier um den Einen Wesensart und spiritueller Hintergrund der Evangelien* Verlag Dr Dieter Winkler 2008 [The Creed of Buddha](#) Edmond Holmes,1957 The author of *The Creed of Buddha* can safely say that no better exposition of Buddhism has ever been given to the world It is sympathetic it is scholarly and it is complete Between east and west says the author a gulf has been fixed a gulf created by basic ideas hollowed out by the erosive action of speculative thought The Western mind takes for granted the reality of outward things The Eastern mind attributes the only reality to the soul All else is maya illusion And there are very few that can bridge thatgulf In the East where the soul is the supreme and fundamental reality the identification of God with the world soul or soul of universal Mature is the outcome of a movement of thought which is at once natural and logical This divine soul is the only real existence by comparison with it all outward things are shadows and all inward things so far as they hold aloof from the all embracing consciousness are dreams The worship of the supernatural such as is to be found in Christianity often ends in the despiritualization of Nature which becomes merely the world without and therefore opposed to the Supernatural which becomes the dwelling place of God
