and liberalism and the emergence of secular culture during the period The run up to Victoria's coronation witnessed a series of controversial liberal reforms While many early Victorians considered the repeal of the Test and Corporation Acts 1828 the granting of civil rights to Roman Catholics 1829 and the extension of the franchise 1832 significant advances for others these three acts signaled a shift in English culture by which authority in matters spiritual and political was increasingly ceded to individuals Victorians from a variety of religious perspectives appropriated the lives of Roman Catholic saints to create narratives of English identity that resisted the recent cultural shift towards private judgment Paradoxically conservative Victorians handling of the saints and the saints lives in their sheer variety represented an assertion of individual authority that ultimately led to a synthesis of liberalism and conservatism and was a key feature of an emergent secular state characterized not by disbelief but by a range of possible beliefs
