Horrifying Children Lauren Stephenson, Robert Edgar, John Marland, 2024-03-07 *Horrifying Children* examines weird and eerie children's television and literature via critical analysis memoir and autoethnography There has been an explosion of interest in the impact of children's television and literature of the late twentieth century In particular the 1970s 80s and 90s are seen as decades that shaped a great deal of the contemporary cultural landscape Television of this period dominated the world of childhood entertainment drawing freely upon literature and popular culture like the *Garbage Pail Kids* and *Stranger Things* and much of it continues to resonate powerfully with the generation of cultural producers fiction writers screenwriters directors musicians and artists that grew up watching the weird the eerie and the horrific the essence of 21st century Hauntology In these terms this book is not about children's television as it exists now but rather as it features as a facet of memory in the 21st century As such it is the legacy of these television programmes that is at the core of *Horrifying Children* The haunting of adults by what we have seen on the screen is crucial to the study This collection directly addresses that which scared us in the past inasmuch as there is a correlation between individual and collective cultural memory with some chapters providing an opportunity for situating existing explorations and understandings of Gothic and Horror TV within a hauntological and experiential framework

The British National Bibliography Arthur James Wells, 1968 [The Window in the Corner](#) Ruth Inglis, 2003 Children's television is a slightly curious field Of all entertainments it is probably the most ambivalent in nature Children usually love it both the good and the bad while parents and producers have never been totally convinced of its value Does it teach Does it corrupt Is it harmless beneficial The soul searching goes on and on Here Ruth Inglis offers up the results of her own search from the soothing tones of *Howdy Doody* in the 1950s to the surreal landscapes of *Teletubbyland* She discusses how commercial success has vied with the need to educate how programs such as *Blue Peter* tried to instill feelings of compassion as well as entertain and how series such as *The Magic Roundabout* set about cultivating fantasy in children's minds It was however after *Romper Room* and *Mister Rogers* that the ground breaking *Sesame Street* through careful research into the learning processes of the very young really set the standard for teaching while remaining entertaining The book also explores developments in animation techniques from the string operated puppets of *Howdy Doody* and *Woodentops* to *The Muppets* from *Yogi Bear* and the Hanna Barbera cartoons and *Lost in Space* to the *Ninja Mutant Turtles* *The Simpsons* and *South Park* to *Barney* and the plasticine figures of *Wallace and Gromit* Specializing in educational psychology and child development journalist Ruth Inglis is a regular contributor to many newspapers and magazines and has written on educational topics for television
