The Workless State A Study Of Unemployment:

The Workless State Brian Showler, Adrian Sinfield, 1981-01 *Forming Nation, Framing Welfare* Gail Lewis, 2006-02-06

This book introduces a historical perspective on the emergence and development of social welfare Starting from the familiar ground of the family it traces some of the crucial historical roots and desires that fed the development of social policy in the 19th and 20th centuries around education the family unemployment and nationhood By aiming to discover the link between past and present it shows that social problems are socially constructed in specific contexts and that there are diverse and competing ways of telling history

Poverty in Britain, 1900-1965 Ian Gazeley, 2017-03-14 How was poverty measured and defined and how has this influenced our judgement of the change in poverty in Britain during the first sixty years of the twentieth century During this period a large number of poverty surveys were carried out the methods of which altered after World War II Commencing with Rowntree s social survey of York in 1899 and ending with Abel Smith and Townsend s *Poor and the Poorest* in 1965 Ian Gazeley shows how the means of evaluation and the causes of poverty changed *Poverty in Britain 1900 1965* Offers a comprehensive empirical assessment of all published poverty and nutritional enquiries in this era Reports the results of recent re examinations of many of the more famous social surveys that took place Considers the results of these surveys within the context of changing real incomes the occupational structure and social provision Evaluates the extent to which the reduction in poverty was due to the actions of the State or to increases in real income including more continuous income from fuller employment Detailed yet easy to follow Ian Gazeley s book is an indispensable guide to the changing face of poverty in Britain during the first six decades of the last century

Talking Politics Kum-Kum Bhavnani, 1991-06-06 Originally published in 1991 this study examines the views of politics presented by young people in contemporary Britain Bhavnani argues that previous studies of youth and youth culture were limited by too great a reliance on simple survey techniques and by lack of attention to conceptions of politics amongst young people and to politics as a series of lived relationships rather than a set of external objects Instead she uses ethnographic approaches and open response interviewing within the broad theoretical framework of social representations The political is taken to refer to the ways in which people regulate and attempt to regulate with a view to challenging unequal social relationships Within this the specific issues examined are employment unemployment youth training schemes democracy and voting racism and marriage Bhavnani s analysis organised by themes such as disposable income and social and personal control tackles questions of power in the research process and a notion of discursive configurations as distinct from social representations
