The World Of Science:

All of Science Allan R. Glanville, 2010 *Scientifica* covers mathematics astronomy geology physics chemistry biology and medicine explaining the major discoveries in each of these fields telling the stories of the people and the techniques involved and showing how these discoveries have become part of modern life

The World of Science Parragon, 2011-09 *World of Science* explores God's creation all around us from the furthest star in the universe to the smallest atom under our feet Through six accessible sections children will gain an understanding of the importance of science in our every changing world This book brings a fresh and engaging approach to all aspects of the subject while a final section of practical activities and experiments makes the application of science fun and enjoyable Cover p 4

To Explain the World Steven Weinberg, 2015-02-17 The Nobel Prize winner shares a masterful journey through humankind's scientific coming of age from the Greeks to modern times Brian Greene In this rich irreverent and compelling history Nobel Prize winning physicist Steven Weinberg takes us across centuries of human striving to unravel the mysteries of the world This sweeping saga ranges from ancient Miletus to medieval Baghdad and Oxford from Plato's Academy and the Museum of Alexandria to the cathedral school of Chartres and the Royal Society of London Weinberg shows that while the scientists of ancient and medieval times lack our understanding of the world they also lacked the knowledge tools and intellectual framework necessary to go about understand it Yet over the centuries through the struggle to solve such mysteries as the curious backward movement of the planets and the rise and fall of the tides the modern discipline of science eventually emerged An illuminating exploration of the way we consider and analyze the world around us *To Explain the World* is a sweeping ambitious account of how difficult it was to discover the goals and methods of modern science and the impact of this discovery on human knowledge and development
