The World Trading System At Risk:

The World Trading System at Risk Jagdish N. Bhagwati, 2014-07-14 Jagdish Bhagwati one of the world's leading economists offers a fascinating overview of the perils and promise facing the world trading system. That system is now being subjected to powerful centrifugal forces. Concerns with unfair trade are rampant, managed trade is increasingly popular, and regionalism is spreading. The United States, the traditional bulwark of multilateralism, has recently resorted to aggressive unilateral tactics in trade policy. To a consideration of these developments, Bhagwati brings a unique blend of economic theory, historical scholarship, and familiarity with the institutions of world trade. Bhagwati refutes facile but fashionable criticisms of the General Agreement on Tariffs and Trade (GATT). Warning of the dangers of flouting the GATT's provisions, he shows that its underlying conception of trading by rules will be undermined if we extend accusations of unfair trade practices to areas as diverse as retail distribution systems, infrastructure spending, saving rates, and workers' rights. He challenges the economic and cultural stereotypes of Japan that fuel the sentiments supporting managed trade and aggressive unilateralism. In addition, he provides novel suggestions for rebuilding the GATT and with it the world trading system itself, suggestions that should prove useful at the Uruguay Round and beyond. Originally published in 1991, *The Princeton Legacy Library* uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Emerging Powers and the World Trading System Gregory Shaffer, 2021-07-22 This book explains the rise of China, India, and Brazil in the international trading system and the implications for trade law. *The World Trading System* Jeffrey J. Schott, 1996 Comprises a collection of papers and comments which discuss challenges confronting the World Trade Organization (WTO). Analyses the implementation of WTO agreements and unfinished business from the Uruguay Round, the impact of proliferating regionalism, the desirability of expanding the WTO agenda to new issues and institutional issues such as WTO accession and linkages with other international institutions. **What Does Globalization Mean for the World Trading System?** Horst Siebert, 1998 **The Global Trading System: 'New' issues for the WTO** Kym Anderson, Bernard M. Hoekman, 2002 *Developing Countries in the World Trading System* Ramesh Adhikari, Premachandra Athukoralge, 2002-01-01 Experience suggests that trade liberalization has contributed substantially to the remarkable growth of industrialized countries. However, for various reasons, many developing countries have not yet been able to integrate successfully into global markets and reap the growth-inducing and poverty-reducing benefits of trade. This book argues that while developing countries are heavily represented in the WTO, accounting for about four-fifths of its membership, there is still plenty of scope for the world trading system to work more effectively in their interests. **Rethinking the Global**

Trading System Grant Douglas Aldonas, 2009 With the global economy slowing global trade negotiations currently not making sufficient progress and the emergence of a risk of increased protectionism the need to demonstrate the importance of trade and the positive contribution it can make to positive economic growth and global welfare has never been more pressing Given the fundamental changes under way in the global economy however progress on trade will require a strategy that looks beyond the Doha Round one that rethinks the ends and means of trade policy in a more globalized world economy This conference had three main objectives 1 assessing what changes in the structure of international trade and development mean for the conduct of trade policy in globally integrated markets 2 exploring how trade policy and the trading system can best contribute to addressing the broader challenges the global community confronts specifically to a reduction in global poverty and a response to global warming and 3 determining the appropriate role for the WTO and the trade regime in the light of the growing debate over reforming the international economic architecture
