Wounded Land Stephen R. Donaldson,1987-10-12 Wounded Land is a deeper richer world than that presented in the previous volumes Stephen R Donaldson is extending himself creating a fuller more mature world of imagination Seattle Post Intelligencer Four thousand years have passed since Covenant first freed the Land from the devastating grip of Lord Foul and his minions The monstrous force of Evil has regained its power once again warping the very fabric and balance of the Land Armed with his stunning white gold wild magic Covenant must battle not only terrifying external forces but his own capacity for despair and devastation His quest to save the Land from ultimate ruin is exciting and heroic as ever David Jones, Disability and Modernist Form Colette Nic Aodha,2025-10-16 Employing a fresh theoretical approach to David Jones work this is the first book to use disability studies as a lens through which to consider his post war work **A History of the Laws of War: Volume 1** Alexander Gillespie,2011-09-06 This unique new work of reference traces the origins of the modern laws of warfare from the earliest times to the present day Relying on written records from as far back as 2400 BCE and using sources ranging from the Bible to Security Council Resolutions the author pieces together the history of a subject which is almost as old as civilisation itself The author shows that as long as humanity has been waging wars it has also been trying to find ways of legitimising different forms of combatants and regulating the treatment of captives This first book on warfare deals with the broad question of whether the patterns of dealing with combatants and captives have changed over the last 5 000 years and if so how In terms of context the first part of the book is about combatants and those who can lawfully take part in combat In many regards this part of the first volume is a series of less than ideal pathways This is because in an ideal world there would be no combatants because there would be no fighting Yet as a species we do not live in such a place or even anywhere near it either historically or in contemporary times This being so a second best alternative has been to attempt to control the size of military forces and therefore the bloodshed This is also not the case by which humanity has worked over the previous centuries Rather the clear assumption for thousands of years has been that authorities are allowed to build the size of their armed forces as large as they wish The restraints that have been applied are in terms of the quality and methods by which combatants are taken The considerations pertain to questions of biology such as age and sex geographical considerations such as nationality and the multiple nuances of informal or formal combatants These questions

have also overlapped with ones of compulsion and whether citizens within a country can be compelled to fight without their consent Accordingly for the previous 3 000 years the question has not been whether there should be a limit on the number of soldiers but rather who is or is not a lawful combatant It has rarely been a question of numbers It has been and remains one of type The second part of this book is about people typically combatants captured in battle It is about what happens to their status as prisoners about the possibilities of torture assistance if they are wounded and what happens to their remains should they be killed and their bodies fall into enemy hands The theme that ties all of these considerations together is that all of the acts befall those who are to one degree or another captives of their enemies As such they are no longer masters of their own fate As a work of reference this first volume as part of a set of three is unrivalled and will be of immense benefit to scholars and practitioners researching and advising on the laws of warfare It also tells a story which throws fascinating new light on the history of international law and on the history of warfare itself *THE HERMETIC TABLET Summer Solstice 2016* Nick Farrell,2016-07-19 The Hermetic Tablet is a bi annual Journal of Western Ritual Magic where people from all traditions share their experiences Some of the contributors are well known names in the occult field while others are just those who want to share knowledge and experiences with the public This issue includes articles written by the following writers Jake Stratton Kent Aaron Leitch Nick Farrell Annie Horniman Chris Newton Jayne Gibson Tony Fuller Ina Custers Van Bergen Morgan Drake Eckstein and Spencer M Graves The Journal covers subjects all related to Western Ritual Magic including Goetia Golden Dawn Wicca Theurgy Angelic Magic Ancient Egypt and pagan ritual There is something for anyone from all spiritual traditions who wants to know about practical Western Ritual Magic *Books for the people [afterw.] The 'R.T.S.' books for the people [afterw.] Penny books for the people [afterw.] Penny tales for the people* Religious tract society,1885

Michael Flück,2012-11-13 When a young dragonrider named Mkel and his dragon Gallanth begin having visions of the last horrendous war that the Dragon Alliance Republic fought against the Morgathian Empire they realize that these visions are warning them of a rising darkness and battle yet to come But as they train their soldiers for the war ahead they discover that the Morgathians arent their only enemy someone within the Alliance is conspiring against them To make matters worse a group of power hungry senators

known as the Party of the Enlightened are collaborating to bring about the Alliance's destruction. Worried by their newfound foes and forever haunted by the death of his father, M'kel must find a way to put the past behind him and bring his troops together if he and Gallanth hope to overcome these threats. But with the odds stacked against them and many difficult battles ahead, M'kel can't help but wonder if he or the Alliance will survive.
