The Year 1 Global Process Work:

The Handbook for Working with Difficult Groups Sandy Schuman, 2010-03-18 WE VE ALL EXPERIENCED the challenges associated with working with groups but *The Handbook for Working with Difficult Groups* turns the idea of difficult groups on its head Rather than view groups as inherently difficult it looks at the factors that make working with groups difficult Individual chapters focus on challenges such as involving dissenters building external perspectives reducing complaining adapting to cultural differences incorporating diversity facilitating inclusion working virtually resolving identity based conflict transforming unproductive behavior patterns preventing workplace harassment and strengthening accountability The book first provides a framework for thinking systemically about the many and varied ways in which working with a group can be difficult Building on that framework the contributors each address three basic issues How the group is difficult a description of a real group and the observable phenomena that reflect the group s difficulty Why the group is difficult an exploration of the underlying causes of the difficulty What you can do about it what you can do as a group facilitator leader or member to help the group

Dance of the Ancient One Arnold Mindell, 2013-02 Just as the earth is moved by the universe you me every human every life form and every thing is moved by the universe as well This movement feeling the sense of the universe s gravity field or what Einstein called space time is not just felt by astronauts All of us feel moved by gravity all the time When you let gravity move you when you are moved by space time you are moved by the universe When you are moved in this way you are showing the dance of the ancient one and are in contact with the space between us with the subtle experience of being moved by what I shall explain is a system mind possibly the most powerful system mind available to us Arnold Mindell *The Dance of the Ancient One* Spring 2013 In his latest book Mindell expands on his earlier concept of the processmind as he develops the notion of space time dreaming or dance of the ancient one in his rigorous efforts toward the elucidation of a ToE or theory of everything Space time dreaming weaves together essential spiritual concepts from the Eastern mystical tradition of the Tao and Wu Wei of Chinese philosophy along with modern Western field and space theories in quantum physics such as gravity space time unified field theories indeterminacy and entanglement He draws upon personal field ideas i e the unconscious interpersonal social field and role theory from psychology and sociology then adds concepts of intersubjectivity and entanglement from transpersonal and integral psychology On a group level he incorporates interdependence from organizational system mind models and places it all in the context of ecology of Gaia and then the larger universe One World concepts such as the Unus Mundus from mystical and alchemical traditions that work at a more essential or non dual level to unite seeming opposites facilitate the coming together of all of these varied perspectives in his framing of the space time dreaming concept experientially accessible as The

Dance of the Ancient One Each chapter contains either an exercise to do in pairs or a small group or an inner work exercise so that you can facilitate yourself and experience the space time dreaming states directly Transcripts of discussions with his students are distributed throughout the book and engagingly contribute to a diverse and resonant learning experience
