Words, Words, Words David Crystal, 2007 *Words Words Words* is all about the wonder of words Drawing on a lifetime's experience David Crystal explores language in all its rich varieties through words the very building blocks of our communication Language has no life of its own it only exists in the mouths and ears hands eyes and brains of its users As we are guided expertly and passionately through the mysteries and delights of word origins histories spellings regional and social variations taboo words jargon and wordplay the contribution we all play in shaping the linguistic world around us becomes evident *Words Words Words* is a celebration of what we say and how we say it It invites us to engage linguistically with who we are to understand what words tell us about where we come from and what we do And as they continually shape our lives it suggests ways that we can look at words anew and get involved with collecting and coining words ourselves
