Theatre and Consciousness Gordon Scott Armstrong,2003 Human beings have speech we have consciousness but 130 000 years ago we had nothing why Theatre and Consciousness argues that the functioning of human consciousness in interpreting and staging a theatrical performance is among the most highly selective and adaptive operations known to science The emergence of the human mind out of discontinuous pulsing neuronal brain patterns is a study in complexity theory possibly as complicated as the organization of the universe According to this book the theatre as a substrate of consciousness is one element that defines modern man as a reflective species having evolved over 190 000 000 years The emergence of Homo Sapiens is unique and fundamentally unpredictable our developed speech is closer to birdsong than to any other species communication on earth we have survived five galactic beam splitters from space and our evolutionary discontinuous cortex has found a pattern to existence that may include up to twenty six folded dimensions of string theory space This book asserts that the story of theatre is the story of the evolution of our second generation star **Theatre & Consciousness** ,2005

Consciousness Susan Blackmore,Emily T. Troscianko,2018-04-27 Is there a theory that explains the essence of consciousness Or is consciousness itself an illusion Am I conscious now Now considered the last great mystery of science consciousness was once viewed with extreme scepticism and rejected by mainstream scientists It is now a significant area of research albeit a contentious one as well as a rapidly expanding area of study for students of psychology philosophy and neuroscience This edition of Consciousness revised by author team Susan Blackmore and Emily Troscianko explores the key theories and evidence in consciousness studies ranging from neuroscience and psychology to quantum theories and philosophy It examines why the term consciousness has no recognised definition and provides an opportunity to

delve into personal intuitions about the self mind and consciousness Featuring comprehensive coverage of all core topics in the field this edition includes Why the problem of consciousness is so hard Neuroscience and the neural correlates of consciousness Why we might be mistaken about our own minds The apparent difference between conscious and unconscious Theories of attention free will and self and other The evolution of consciousness in animals and machines Altered states from meditation to drugs and dreaming Complete with key concept boxes profiles of well known thinkers and questions and activities suitable for both independent study and group work Consciousness provides a complete introduction to this fascinating field Additional resources are available on the accompanying companion website www.routledge.com/cw/blackmore

Performance & Consciousness Daniel Meyer-Dinkgrafe, 2018-12-07 This is volume 1 part 4 of the Performing Arts International forum This collection of essays covers a breadth of topics on the theme of consciousness addressing the trend of studies trying to put human experience into more concrete cogent less poetic and metaphorical terms Major issues raised by the essays are summarised and a hypothesis serving as a stimulus for further research and debate is suggested by the volume s conclusion
