Faith, Family, and Flag Joanna Dee Das,2025-11-25 Sons of Britches The Great American Chuckwagon Dinner Show The Haygoods The Grand Jubilee These are just a couple of the many shows performed in Branson MO where the seemingly innocent entertainment fuels American conservatism Branson Missouri the Ozark Mountain mecca of wholesome entertainment has been home to countless stage shows espousing patriotism and Christianity welcoming over ten million visitors a year Some consider it God s Country and others as close to Hell as anything on Earth For Joanna Dee Das Branson is a political religious and cultural harbinger of a certain enduring dream of what America is She takes Branson more seriously than the light hearted fun it advertises and maybe we should too For Das Branson s performers offer visions of the American Dream that embody a set of values known as the three Fs faith family and flag Branson boosters insist that these are universal values that welcome all people the city aims to capture as many tourists as possible But over the past several decades faith family and flag have become markers of contemporary conservatism The shows and culture of Branson for all their fun and laughter have been a galvanizing political force for white working and middle class Christian Americans For social and economic conservatives alike Branson is practically proof of concept for America as they want it to be Faith Family and Flag is a comprehensive history of the Branson entertainment industry within the context of America s long culture wars Das reveals how and why a town known for popular entertainment a domain associated most often with the political left Hollywood liberals came to be so important to the political right and its vision for America

Getting Into the Act Ellen Donkin,2005-08-03 *Getting Into the Act* is a vigorous and refreshing account of seven female playwrights who against all odds enjoyed professional success in the late eighteenth and early nineteenth century Ellen Donkin relates fascinating disturbing tales about the male theatre managers to whom they were indebted and the trials and prejudices they endured ranging from accusations of plagiarism to sexual harassment This scarred turbulent early history still resonates in the late twentieth century The current ratio of female to male playwrights is virtually unchanged Old patterns of male control persist and playwriting continues to be a hazardous occupation for women But within these scarred earlier histories there are equally powerful narratives of self revelation endurance and professional triumph that may point to a new way forward *Getting Into the Act* is entertaining and informative reading for anyone from scholar to general reader who is interested in the history and gender politics of the stage

Theatre Worlds in Motion Hans van Maanen,S. E. Wilmer,1998 *Theatre Worlds in Motion* aims to clarify the different theatre traditions and practices in Western Europe from a historical and sociological perspective The book grew out of a perceived need among theatre scholars who had recognised that while they understood the theatre system of their own country they often found it difficult to discover how it compared with other countries The chapters analyse the basic components and dynamics of theatre systems in seventeen Western European

nations in order to elucidate how the systems function in general and how they vary in different cultures The book provides a sense of what has been happening recently in particular countries and indicates how the theatre systems have developed over time and have led to the current practices and structures Each national chapter considers the historical tradition and place of theatre within the country and analyses the role of the state in fostering theatre during the last fifty years Material from the national chapters has been used in two general chapters at the beginning and end of the book to provide an overview to developments in all Western Europe The introductory chapter on decentralisation discusses the tendency amongst governments to encourage cultural development outside the national capital by providing subsidy for regional theatre venues and theatre companies and in many cases by developing the decision making and budgetary powers for the theatre to regional and local authorities The epilogue on the functioning of theatre examines the common structures of theatre in society as described in the seventeen national chapters and it proposes areas for future research **The**
