*Themes and Images in the Medieval English Religious Lyric* Douglas Gray, 2019-07-05 Originally published in 1972  
Themes and Images in the Medieval English Religious Lyric discusses themes and images in religious lyric poetry in Medieval English poetry The book looks at the affect that tradition and convention had on the religious poetry of the medieval period It examines the background of the lyrics including the Latin tradition which was inherited by medieval vernacular and shows how religious lyric poetry presents through a rich variety of images the significant incidents in the scheme of Christ s redemption such as the Annunciation the Nativity the Passion and the Resurrection It also considers the lyrics which were designed to assist humanity in the task of living in a Christian life as well as those which prepared them for death **Old English and Middle English Poetry** Derek Pearsall, 2019-06-27 Originally published in 1977 Old English and Middle English Poetry provides a historical approach to English poetry The book examines the conditions out of which poetry grew and argues that the functions that it was assigned are historically integral to an informed understanding of the nature of poetry The book aims to relate poems to the intellectual and formal traditions by which they are shaped and given their being This book will be of interest to students and academics studying or working in the fields of literature and history alike

**The Middle English Lyric and Short Poem** Rosemary Greentree, 2001 This Bibliography assembles annotation of collections and criticism of lyrics of religious and secular love carols and songs and rhymes of everyday life The Middle English lyrics and short poems form a varied group that ranges over most aspects of life to include lyrics of religious and secular love carols and songs and mundane rhymes of everyday life Thus there are expressions of devotion ethereal or earthly theological expositions and knowledge needed for life The poems are disparate and generally anonymous and their survival owes much to chance The bibliography assembles neutral annotation of collections and criticism of the works arranged chronologically to show the course of criticism and the growing appreciation of these poems and all they can tell us The introduction considers these matters problems of definition of the genre and the isolable lyrics and seeks to reconcile some first impressions of the poems as disparate and slight with the rewards of close study ROSEMARY GREENTREE is currently Visiting Research Fellow Dept of English University of Adelaide **English Literature in the Age of Chaucer** Dieter Mehl, 2014-06-11 Written in an engaging and accessible manner English Literature in the Age of Chaucer serves as both a lucid introduction to Middle English literature for those coming fresh to the study of earlier English writing and as a stimulating examination of the themes traditions and the literary achievement of a number of particularly original and interesting authors In addition to detailed and sensitive treatment of Chaucer s major works the book includes chapters on his chief contemporaries such as John Gower William Langland and the Gawain poet It also examines the often underrated contribution to the English literary tradition of his successors John Lydgate and Thomas Hoccleve as well as the interesting and original work of the Scottish poets Robert Henryson William Dunbar and Gavin Douglas who also claim Chaucer as their

model Apart from the narrative poetry of Chaucer and his followers the book also contains chapters on the Middle English lyric Middle English prose including Mandeville's travels the most original and imaginative writings of the Middle English mystics in particular Julian of Norwich and Margery Kempe and Thomas Malory's impressive prose compilation of Arthurian stories

**Mysticism and Spirituality in Medieval England** William F. Pollard, Robert Boenig, 1997 The late fourteenth and early fifteenth centuries in England were a golden age of mysticism the major figures could draw on and allude to a host of treatises as the Cloud author acknowledges when he explains how the works of St Denis validate all he writes about Without Denis without the theologians of the eleventh and twelfth centuries without the anchoritic writings of the thirteenth century Richard Rolle Julian of Norwich Walter Hilton Margery Kempe could not have written as they did Likewise those who followed them the Wycliffites the Brigittines the writers of religious lyrics responded to those who had gone before The articles presented here identify major themes and the web of influence that link them new but solid interpretations are offered of the key figures and their backgrounds and the emphasis is on the rich variety of mysticism these authors and texts embody

**Cultivating the Heart** Ayoush Lazikani, 2015-06-15 Detailed close analysis of early Middle English homiletic hagiographic guidance and lyrical meditative texts provides readers with an insight into the affective literary strategies of a body of neglected material Contextualization of English material in Latin and Anglo Norman provides readers with a deeper knowledge of the multilingual culture of medieval England in the post Conquest centuries Substantial commentary on church wall paintings provides readers with a nuanced understanding of the ways in which the affective strategies of visual resources can be mapped onto texts

**The Orient in Chaucer and Medieval Romance** Carol Falvo Heffernan, 2003 A study of romance and the Orient in Chaucer and in anonymous popular metrical romances The idea of the Orient is a major motif in Chaucer and medieval romance and this new study reveals much about its use and significance setting the literature in its historical context and thereby offering fresh new readings of a number of texts The author begins by looking at Chaucer's and Gower's treatment of the legend of Constance as told by the Man of Law demonstrating that Chaucer's addition of a pattern of mercantile details highlights the commercial context of the eastern Mediterranean in which the heroine is placed she goes on to show how Chaucer's portraits of Cleopatra and Dido from the Legend of Good Women read against parallel texts especially in Boccaccio reveal them to be loci of medieval orientalism She then examines Chaucer's inventive handling of details taken from Eastern sources and analogues in the Squire's Tale showing how he shapes them into the western form of interlace The author concludes by looking at two romances Floris and

Blauncheffur and Le Bone Florence of Rome she argues that elements in Floris of sibling incest are legitimised into a quest for the beloved and demonstrates that Le Bone Florence be related to analogous oriental tales about heroic women who remain steadfast in virtue against persecution and adversity Professor CAROL F HEFFERNAN teaches in the Department of English Rutgers University
