Theodore Dreiser Beyond Naturalism:

Theodore Dreiser Miriam Gogol, 1995-10 Theodore Dreiser is indisputably one of America's most important twentieth century novelists. *An American Tragedy*, *Sister Carrie*, and *Jennie Gerhardt* have all made an indelible mark on the American literary landscape. And yet remarkably few critical books and no recent collections of critical essays have been published that attempt to answer current theoretical questions about Dreiser's entire canon. This collection is the first to appear in twenty-four years. The ten contributing essayists offer original interpretations of Dreiser's works from such disparate points of view as new historicism, poststructuralism, psychoanalysis, feminism, film studies, and canon formation. A vital reassessment of Theodore Dreiser Beyond Naturalism brings this influential modern writer into the 1990s by viewing him through the lens of the latest literary theory and cultural criticism.

Theodore Dreiser Going Beyond Naturalism Ratan Bhattacharjee, 1st, 2020-12-11 Theodore Dreiser was closest to my heart because his transcendental vision was so profoundly expressed in his novels that the tag of Naturalism to his writings and perception seemed to me fully meaningless. I was surprised when I read his novels thoroughly and discovered in them a celebration of Individualism in the most positive way and what is more there was a clear message that he was a critic of American materialistic dream and in the trilogy he transcended all that he depicted of animalism and dollar craze in his earlier novels.

Working Women in American Literature, 1865-1950 Miriam S. Gogol, 2020-07-07 *Working Women in American Literature 1865-1950* consists of eight original essays by literary, historical, and multicultural critics on the subject of working women in late nineteenth to mid twentieth century American literature. The volume examines how the American working woman has been presented, misrepresented, and underrepresented in American realistic and naturalistic literature 1865-1930 and by later authors influenced by realism and naturalism. Points explored include the historical vocational realities of working women: e.g. factory workers, seamstresses, maids, teachers, writers, prostitutes, etc. the distortions in literary representations of female work, the ways in which these representations still inform the lives of working women today, and new perspectives from queer theory, immigrant studies, and race and class analyses. These essays draw on current feminist thought while remaining mindful of the historicity of the context. The essayists discuss important women writers of the period, for instance Ellen Glasgow, Charlotte Perkins Gilman, Rachel Crothers, Willa Cather, and the understudied Ann Petry, as well as canonical writers like Theodore Dreiser, Henry James, and William Dean Howells. The discussions touch on a variety of literary and artistic genres: novels, short stories, other forms of fiction, biographies, dramas, and films. In the introductory essay and throughout the collection, the term "working women in the United States" is deconstructed, the historical and cultural definitions of work, and the words "work in America" are redefined through the lens of genders.
