Theology of Elisabeth Behr-Sigel Sarah Hinlicky Wilson,2013-09-26 Elisabeth Behr Sigel 1907 2005 a convert to Orthodoxy in her early twenties and a central figure of Orthodox theology among Russian migr s in Paris first began to reflect on the question of women in the priesthood in 1976 Initially supporting the general consensus that priesthood would be impossible for the Orthodox she came to retract this view finding a basis for female ordination in women s distinct spiritual charisms Behr Sigel later shifted the foundation of her case to personhood inspired by the work of fellow Orthodox theologian Vladimir Lossky and arrived at the conclusion that all the Orthodox arguments against the ordination of women were in fact heretical at root In this volume Wilson analyzes all of Behr Sigel s writings about women and the priesthood across the whole sweep of her career demonstrating the development of her thought on women over the last thirty years of her life She evaluates her relationship to feminism Protestantism and movements within Orthodoxy finally drawing conclusions about this much contested matter for the ongoing debate in both the East and the West Modern Orthodox

groundbreaking study offers an innovative critical analysis of poetry as a resource for reflective practice in the context of continuing professional development In the contemporary drive in all professions for greater rigour in education training and development little attention is paid to the inner shape of learning and meaning making for individuals and groups especially ways in which individuals are formed for the task of their work Building on empirical research into the author s professional

practice the book takes the use of poetry in clergy continuing ministerial development as a case study to examine the value of poetry in professional learning Setting out the advantages and limitations of poetry as a stimulant for imaginative critical reflexivity and formation within professional reflective practice the study develops a practical model for group reflection around poetry distilling pedagogical approaches for working effectively with poetry in continuing professional development Drawing together a number of strands of thinking about poetry Practical Theology and reflective practice into a tightly argued study the book is an important methodological resource It makes available a range of primary and secondary sources offering researchers into professional practice a model of ethnographic research in Practical Theology which embraces innovative methods for reflexivity and theological reflection including the value of auto ethnographic poetry **Virtue**

Ecclesiology John Fitzmaurice, 2017-05-15 Critiquing a paradigm of growth within the church this book contends that the church's growth ethic should be replaced by one based on virtue Drawing on the work of Sennett Fromm and Hauerwas John Fitzmaurice argues that an approach taking growth to be the overriding task of the church is found to be shallow and risks infantilising the faith it purports to proclaim MacIntyre's proposal for a recovery of a virtue based ethic is examined and interpreted theologically through the concepts of narrative theology community sacraments and sanctification the role of practices in developing virtuous character is central The nature of a virtuous organisation is explored through a lens of organisational psychodynamics this understanding informs a model of church as a community of interpretation Fitzmaurice suggests that it is in and through sacramental practices that the transitional space for these virtues to be formed is created Tracing a similar corrosion of character within secular institutions that have opted for an overriding focus on growth this book offers an alternative based on the formation of corporate as well as individual virtuous character and considers the implications of a virtue based growth ethic on theological education and ministerial formation as well as in terms of public theology and the manner of the church's engagement with society **The Living Theological Heritage of the United**

the Religious Educator Timothy Arthur Lines, 1992 FUNCTIONAL IMAGES OF THE RELIGIOUS EDUCATOR is one of those rare and precious books which helps religious educators explore and clarify their own special identity as religious educators This special identity is revealed in ten basic functional roles which are central to religious education enactment The author shows that while religious educators perform most and possibly all these ten basic functional roles nonetheless one
