Theological Ethics:

Approaches to Theological Ethics Maureen Junker-Kenny, 2019-11-14 Maureen Junker Kenny offers a systematic overview of the discipline of theological ethics in the variety of its approaches which draw upon different philosophical traditions and theological visions in treating its sources Part One examines the four sources of theological ethics the Bible tradition philosophical accounts of the human and the individual human sciences Part Two compares five frameworks in English and German speaking theological ethics based on virtue worship natural law autonomy and feminist analyses Part Three compares three types of vision integralist praxis oriented and discourse focused and Junker Kenny concludes by situating the investigation of the discipline within contemporary philosophical and theological exchanges on religion in the public sphere The book provides a framework in which students can locate the specific use of core ethical concepts and argumentations comparing how each approach relates to the Bible to historical reason theological thought practical self understandings and interdisciplinary perspectives on ethics in a scientific and technological culture In an age of globalisation where different cultures religions lifestyles and values meet in the workplace in schools and in public spaces shaped by religious and cultural traditions it is necessary to foster the ability to create possibilities and venues for dialogue between different self understandings Analysing the variety of approaches to theological ethics helps articulate different visions of what constitutes a fulfilled life of how the moral vocation of each human being can be supported and of the role of the Christian faith for ethics

inherently missional The church as the image of the triune God makes it the home of ethics but in light of its missional identity it will reverberate outwards to engage the world in ways that are humble and not power mongering that are gospel based and shalom evoking Theological Ethics is for those who lead churches or ministries or someday will and who urgently need deep theological grounding as they daily encounter ethical and moral issues where they need to provide a gracious truthful and gospel directed response X

The Bible and Catholic Theological Ethics Chan, Yiu Sing Lucas, Keenan, James F., Zacharias, Ronaldo, 2017-05-18 *Reframing Catholic Theological Ethics* Joseph A. Selling, 2016 Traditionally Catholic moral theology has been based upon an approach that over emphasized the role of normative ethics and subsequently associated moral responsibility with following or disobeying moral rules Reframing Catholic Theological Ethics offers an alternative ethical method which without destroying any of the valuable insights of normative ethics reorients the discipline to consider human motivation and intention before investigating behavioral options for realizing one s end Evidence from the New Testament warrants the formation of a teleological method for theological ethics which is further elaborated in the approach taken by Thomas Aquinas Unfortunately the insights of the latter were misinterpreted at the time of the counter reformation Joseph A Selling s analysis of moral theological textbooks demonstrates the entrenchment of a normative method aimed at identifying sins in service to the practice of sacramental confession With a firm basis in the teaching of Vatican II the human person integrally and adequately considered provides the fundamental criterion for approaching ethical issues in the contemporary world The perspective then turns to the crucial question of describing the ends or goals of ethical living by providing a fresh approach to the concept of virtue Selling concludes with suggestions about how to combine normative ethics with this alternative method in theological ethics that begins with the actual ethical orientation of the human person toward virtuous living

from African Western and biblical contexts Nkansah demonstrates how important they are for dealing with contemporary moral and social issues facing the church in Africa and African societies The book develops a theoretical biblical and theological foundation for Theological Ethics and uses this to address the broader issues that affect the socio political and economic life of African people and the church

The Doctrine of God and Theological Ethics Michael C. Banner, Alan Torrance, 2006-08-29 This book addresses an important topic and fills a major gap in developments in modern theology and Christian ethics Significant treatments include Wolfhart Pannenberg's historical overview of the relationship between modernism and Christian faith John Webster's meticulous analysis of Christian theology's contribution to modern conceptions of conscience J L O Donovan's critique of liberal contractarian theory and Alasdair MacIntyre's examination of the critical issues which Christianity raises for secular philosophy

Catholic Theological Ethics Todd A. Salzman, Michael G. Lawler, 2015-11-23 This book has two objectives one explicit and one implicit The explicit objective is to explore the normative implications for both general and sexual ethics of the methodological and anthropological developments in Catholic tradition The implicit objective is to stimulate dialogue in the Church about ethics particularly sexual ethics a dialogue that must necessarily include all in the communion Church laity theologians and hierarchy Since we believe that genuine and respectful dialogue about sexual morality is sorely needed to clarify Christian truth today we intend this book to be part of that genuine dialogue
