Theological Hermeneutics Development And Significance:

Theological Hermeneutics Werner G. Jeanrond, 1991-06-18 An introduction to the history and scope of interpretation theory in theology It discusses hermeneutical consciousness in Christian thinking from the time of the Church Fathers up to today

The Formation and Significance of the Christian Biblical Canon Tomas Bokedal, 2013-12-05 This book offers a fresh cross disciplinary approach to the current discussion on the Christian canon formation process By carefully integrating historical hermeneutical and theological aspects to account for the emergence of the canon it seeks to offer a more comprehensive picture of the canon development than has previously been achieved The formation and continuous usage of the Christian biblical canon is here viewed as an act of literary preservation and actualization of the church s apostolic normative tradition the Scriptures and the Lord addressing first of all the church but also the wider society In order to grasp the complex phenomenon of the biblical canon the study is divided into four parts focusing respectively on linguistic and effective historical textual and material performative and ideational aspects of the canon Attention is given to the scribal nomina sacra convention the codex format oral and written Gospel early Christian liturgical praxis and the Rule of Faith Bokedal argues that the canon was formed in a process with its own particular intention history and direction Throughout the study history and theology past and present are considered alongside each other By using a Gadamerian hermeneutics of tradition the reader s attention is directed to historical dimensions of the canon and its interpretative possibilities for our time The notion of effective history Wirkungsgeschichte as well as the interaction between text community and reader are crucial to the argument The canonical text as text its interpretation and ritual contextualization are highlighted as unifying elements for the communities being addressed

Hermeneutics, Linguistics, and the Bible Stanley E. Porter, 2024-01-25 The volume presents Stanley E Porter s considered thoughts and reflections on key questions of meaning and context addressing the problems of biblical interpretation and how a close collaboration between hermeneutics and linguistics can help to solve them The chapters display Porter s work in both fields examining how hermeneutics functions as a field in modern biblical studies and how the quest for meaning in biblical texts is underpinned by the study of linguistics The volume focuses on context for understanding the meanings of biblical texts Porter suggests that linguists can learn more from the philosophical questions around meaning that hermeneutics apply in their study of biblical texts and that there is more fruitful work to be done in the field of hermeneutics using insights from linguistics

Theology After Ricoeur Dan R. Stiver, 2001-01-01 Dan Stiver presents the implications of Paul Ricoeur s hermeneutical philosophy for a postmodern theology by providing a comprehensive interpretation of Ricoeur and then applying Ricoeur s hermeneutical theory to biblical interpretation and theology Stiver situates Ricoeur s contributions in the Yale Chicago debate and shows how Ricoeur s textual theory provides a real alternative to George Lindbeck on the one hand and deconstruction on the other

Constructive Pneumatological Hermeneutics in

Pentecostal Christianity Kenneth J. Archer, L. William Oliverio, Jr., 2016-12-21 This book presents the work of leading hermeneutical theorists alongside emerging thinkers examining the current state of hermeneutics within the Pentecostal tradition. The volume's contributors present constructive ideas about the future of hermeneutics at the intersection of theology of the Spirit, Pentecostal Christianity and other disciplines. This collection offers cutting edge scholarship that engages with and pulls from a broad range of fields and points toward the future of Pneumatological hermeneutics. The volume's interdisciplinary essays are broken up into four sections: philosophical hermeneutics, biblical theological hermeneutics, social and cultural hermeneutics, and hermeneutics in the social and physical sciences. Is There a Meaning in this Text? Kevin J. Vanhoozer, 2009 Written by a brilliant young author, this book develops an evangelical theological hermeneutic that sees meaning in the text of Scripture. The Oxford Companion to Christian Thought Adrian Hastings, Alistair Mason, Hugh S. Pyper, 2000-12-21 Embracing the viewpoints of Catholic, Protestant or Orthodox thinkers of conservatives, liberals, radicals and agnostics, Christianity today is anything but monolithic or univocal. In The Oxford Companion to Christian Thought, general editor Adrian Hastings has tried to capture a sense of the great diversity of opinion that swirls about under the heading of Christian thought. Indeed, the 260 contributors who hail from twenty countries represent as wide a range of perspectives as possible. Here is a comprehensive and authoritative though not dogmatic overview of the full spectrum of Christian thinking. Within its 600 alphabetically arranged entries, readers will find lengthy survey articles on the history of Christian thought on national and regional traditions and on various denominations from Anglican to Unitarian. There is ample coverage of Eastern thought as well, examining the Christian tradition in China, Japan, India and Africa. The contributors examine major theological topics such as resurrection, the Eucharist and grace, as well as controversial issues such as homosexuality and abortion. In addition, short entries illuminate symbols such as water and wine, and there are many profiles of leading theologians and non-Christians who have deeply influenced Christian thinking, including Aristotle and Plato, and of literary figures such as Dante, Milton and Tolstoy. Most articles end with a list of suggested readings, and the book features a large number of cross-references. The Oxford Companion to Christian Thought is an indispensable guide to one of the central strands of Western culture. An essential volume for all Christians, it is a thoughtful gift for the holidays. **Paul Ricoeur Between Theology and Philosophy** Boyd Blundell, 2010 Introduction Part I The main road: Fundamental loyalties, Theology, hermeneutics and Ricoeur's double life. Part II Detour: Prefiguration, the critical arc and descriptive identity, Configuration, the narrative arc and narrative identity, Refiguration, Ricoeur's little ethics. Part III Return: Chalcedonian hermeneutics, Theological anthropology, removing brackets. Conclusion. Faith and Order Commission Papers, 2000 **Minnesota Law Review**, 2005 **Orthodoxy, Process and Product** Mathijs Lamberigts, Lieven Boeve, Terrence Merrigan, 2009 From 2002-2008, three research groups from the departments of systematic theology and church history at the Faculty of Theology, KU Leuven, joined forces in an interdisciplinary project entitled Orthodoxy Process.

and Product The aim of the project was a church historical and systematic theological study of the determination of truth in church and theology The present volume contains contributions from all senior members of the project research group The contributions are the result of a research conference in 2006 in which both the question of the nature of truth as such and the process of determination of theological truth was approached from many different angles Thus questions from philosophy systematic theology and history of church and theology are discussed including such themes as the implications of various philosophical theories of truth for theology the question of religious pluralism and its ramifications for theological truth claims theological truth claims in the thought of Gregory of Nyssa Augustine John Driedo and at the Second Vatican Council In addition the meta question of the relationship between the historical and the systematic aspects of theological truth and the way in which the historical and systematic theological disciplines interact play an important role in this volume

Hans Küng Karl-Josef Kuschel, Hermann Häring, 1993 To mark the occasion of Hans Kung s sixty fifth birthday this volume was prepared by various writers thinkers and religious leaders to celebrate Kung s life and his theology The contributors themselves illustrate the extent of Kung s influence as they come not only from Switzerland and Germany but from Britain and Ireland the United States Latin America Saudi Arabia and Russia and represent not only Christianity but Judaism Islam and Buddhism Together these contributors reflect on the many circles of thought that have made up Kung s remarkable intellectual career ecclesiology christology theology and ecumenicism first within Christianity and then to the entire world in the form of a global ethic In spite of Kung s continued expansion into wider horizons of faith and thought his basic theological insights have remained remarkably constant throughout his long career He has been less influenced by fashion than many other theologians demonstrating a constancy of conviction and coherence of theological method Kung has however set the fashion for others as he has brought and continues to bring attention to highly topical and critical issues of the current day This volume is a fascinating critical survey of a remarkable theologian s life and thought It provides a real understanding of Kung s theology its strengths and weaknesses its limitations and its riches Finally it aims toward rehabilitating Hans Kung as a Catholic theologian As Heinrich Fries one of the great figures of Roman Catholic ecumenical theology recently asked Is the Catholic church so narrow that it cannot tolerate a man like Kung Or is it so rich that it can dispense with him

Coming to Christ Owen F. Cummings,1998 Coming to Christ provides a retrieval of the traditional Christian doctrine of eternal life through scripture and the history of theological reflection while presenting the liturgy as primary theology since it addresses God directly It traces back to Neanderthal man the reality of human hope that looks beyond death and demands final expression in eternal communion with God This book examines Christian eschatology which developed not only through the universal experience of mankind but through the Scriptures and in the reception of the scriptures in the tradition of

reflection of the church The author discusses selectively representative Christian thinkers in the Patristic Medieval and Reformation periods exposing the similarities between them He then moves into the radically changed thinking of modern times beginning with Kant and the liberal nineteenth century Protestant theology as well as an examination of Protestant Catholic Anglican and Orthodox theologians to give a sense of range and scope of twentieth century eschatology Also addressed are the contemporary issues of reincarnation from a Christian perspective along with feminist and ecological eschatologies

Reconciliation and the Search for a Shared Moral Landscape Maria Ericson,2001 This book focuses on reconciliation in Northern Ireland and South Africa The overarching aim is to identify formal and material conditions or prerequisites for reconciliation and moral community or more precisely a shared moral landscape In both countries obstacles to reconciliation can be found in the following elements of a moral landscape Experiences of trauma separation and inequalities divergent views of the conflict and of the other opposing identifications and loyalties certain norms for interaction and contestant interpretations of values such as peace and justice This book describes how these obstacles have been addressed in 1 Efforts particularly by ecumenical groups to bridge the Catholic Protestant divide in Northern Ireland 2 The work of and debates surrounding the South African Truth and Reconciliation Commission On the basis of these dialogues in adverse circumstances this study then suggests some prerequisites for emancipatory conversations a central question in the search for a global ethics

Neglected Wells Anne M. Murphy,Eoin G. Cassidy,1997 Anyone who has ever been moved by picture poem or symphony will understand the power of art to bring meaning to the often dissonant counterpoint of light and darkness which is reflected in life and death Human creativity as the expression of hope need and desire is a statement of belief that life is meaningful From classical philosophies of beauty to Celtic scholarship through the mysticism of Patrick Kavanagh and the witness of women s writing and from the sacred sounds of Faure through the spiritual impact of the visual arts to the prophetic soundings of contemporary Irish writing these essays suggest that the imagination can indeed uncover neglected wells of spirituality for our contemporary society
