Theology And Social Structure:

Social Constructionism and Theology Chris Hermans, Immink, Albert F. de Jong, Lans, 2001-12-01 Scholars of practical theology are increasingly regarding the discipline as one whose scope extends beyond the bounds of an applied theology The concept of action or practice plays a central role in this new understanding At the base of theological reflections by scholars of practical theology are the practices and these are analyzed empirically The aim of the discipline is to transform these practices and develop a hermeneutical action theory or a hermeneutical empirical approach to human actions As a result of its focus on practices practical theology is closely linked to the social sciences Within the social sciences social constructionism is a growing theory Although its forms vary this theory is one to which not only social scientists but also researchers in the psychology and sociology of religion adhere This volume demonstrates the importance of reflection on the emerging concept of social constructionism in the social sciences by scholars of practical theology

The Social Structure of the Northern Algonkian Frank Gouldsmith Speck, 1917

Religion, Social Structure and Economic Development in Yi Dynasty Korea Hesung Chun Koh, 1959

Theology Shaped by Society Robin Gill, 2012 Theology Shaped by Society argues that theology can be seen as a socially constructed reality that is sometimes dangerously related to power but at other times is a positively engaged discipline taking the risk of being shaped by particular societies and cultures From this second perspective theology is seen properly as a thoroughly relational discipline as itself a social system Gill examines mission shaped by society and maps this in practical terms by examining recent religious trends in York He also shows how music can imaginatively shape theology and reveal unexpected resonances

The Companion to Said Nursi Studies Ian S. Markham, Zeyneb Sayilgan, 2017-08-24 Contemporary Islamic theology remains a neglected area in studies on Islam This work is dedicated to the thought and ideas of Said Nursi 1876 1960 one of the most prominent Muslim theologians of the twentieth century Nursi inspired a faith movement the Nur community that originated in Turkey It continues to play a key role in the revival of Islam and now numbers several millions of followers worldwide His legacy and impact deserve therefore to be examined more closely This volume is the most substantial overview in English of the inspiration of Said Nursi and his masterpiece the Risale i Nur In the beginning the essays provide the reader with Nursi s historical context and biography Then Nursi s theological views his understanding of society and ideas on politics are placed under the spotlight Over the last twenty years more and more comparative religion specialists in the West have become acquainted with Said Nursi Nursi studies is now an established discipline and this volume is a celebration of that reality As it reveals Muslims and Christians are grappling with the wisdom of this remarkable rich thinker
