Theology For A New World:

Theology for a New World Herbert W. Richardson, 1968 *Theology for a New World* Herbert Warren Richardson, 1968

The Rise of Mormonism Rodney Stark, 2005-10-26 Will Mormonism be the next world faith one that will rival Catholicism Islam and other major religions in terms of numbers and global appeal This was the question Rodney Stark addressed in his much discussed and much debated article *The Rise of a New World Faith* 1984 one of several essays on Mormonism included in this new collection *Examining the religion s growing appeal* Rodney Stark concluded that Mormons could number 267 million members by 2080 In what would become known as the Stark argument Stark suggested that the Mormon Church offered contemporary sociologists and historians of religion an opportunity to observe a rare event the birth of a new world religion In the years following that article Stark has become one of the foremost scholars of Mormonism and the sociology of religion This new work the first to collect his influential writings on the Mormon Church includes previously published essays revised and rewritten for this volume His work sheds light on both the growth of Mormonism and on how and why certain religions continue to grow while others fade away Stark examines the reasons behind the spread of Mormonism exploring such factors as cultural continuity with the faiths from which it seeks converts a volunteer missionary force and birth rates He explains why a demanding faith like Mormonism has such broad appeal in today s world and considers the importance of social networks in finding new converts Stark s work also presents groundbreaking perspectives on larger issues in the study of religion including the nature of revelation and the reasons for religious growth in an age of modernization and secularization The Weekly Review , 1892 *The Other Worldview* Peter Jones, 2015-06-24 A must read for every concerned American and especially for every Christian who weeps at the graveside of his culture R C Sproul A cataclysmic change has occurred as our culture has shifted toward belief in Oneism Every religion and philosophy fits into one of two basic worldviews Oneism asserts that everything is essentially one while Twoism affirms an irreducible distinction between creation and Creator The Other Worldview exposes the pagan roots of Oneism traces its spread throughout Western culture and demonstrates its inability to save For bodily holiness and transformed thinking we depend entirely on one amazing thing the incredibly powerful message of the Gospel to a sinful world which is the ultimate expression and goal of Twoism The only hope is in Christ alone *Religious Education* , 1912 **From the Well of Life, Nobody Can Drink Alone** Frantisek Stěch, 2026-01-13 What is theology and how can it still speak with meaning today This book is both a personal and scholarly journey into fundamental theology reimagined through dialogue with youth ministry and the lived experiences of young people It reflects on faith not as a closed system of doctrines but as a dynamic story an auto Theo biography where human lives and God s presence intertwine Drawing on Central European contexts encounters with students and the wisdom of internationally renowned mentors the author explores how theology can be communicated in a secular yet spiritually searching culture Here theology is not reserved for specialists but opens into conversation with

everyday life culture and future generations Challenging the boundaries between theory and practice this book calls for a theology that is understandable existentially relevant and rooted in stories of faith hope and love At once deeply autobiographical and widely dialogical it shows how fundamental theology can meet youth ministry and youth theology to inspire renewal mutual learning and a rediscovery of God in surprising places *Gospel Herald* ,1929 The Magazine of Christian Literature ,1892 The American Journal of Theology University of Chicago. Divinity School,1920 Vols 2 6 include Theological and Semitic literature for 1898 1901 a bibliographical supplement to the American journal of theology and the American journal of Semitic languages and literatures By W Muss Arnolt Separately paged Great Events in Religion Florin Curta,Andrew Holt,2016-11-28 This three volume set presents fundamental information about the most important events in world religious history as well as substantive discussions of their significance and impact This work offers readers a broad and thorough look at the greatest events in world religious history covering a wide range of religions time periods and areas around the globe The entries present authoritative information and informed viewpoints written by expert contributors that enable readers to easily learn about the chief events in religious history help them to better understand the course of world history and promote a greater respect for culturally diverse religious traditions The first of the three volumes covers religion from the preliterate world through around AD 600 the second the post classical era from 600 to 1450 and the third the modern era from 1450 to the present Each volume begins with a substantive introduction that discusses the history of world religions during the period covered by the volume The chronologically ordered entries overview each event place it in historical context and identify the reasons for its enduring significance **The Independent** ,1926 **Library of Congress Subject Headings** Library of Congress,Library of Congress.
