Theology In Postliberal Perspective:

    <u>Theology in Postliberal Perspective</u> Daniel Liechty,1990 For many Christians the time of an authoritarian theology whether based on the authority of the Bible or that of the church is no longer viable Even movements like biblical theology or the kind of theology of revelation centered on Jesus Christ such as Karl Barth championed seem to have had their day in our pluralistic world In addition a return to the liberalism that was so dominant at the beginning of this century important though many of its insights and approaches may still be seems impossible What then is the alternative The only course open is to go forward from where we are now taking seriously all of the features of our modern world This is what Daniel Liechty aspires to do in this book Writing from experience in the United States and in Europe against a Quaker and Mennonite background he offers a fascinating outline of postliberal theology covering all the major theological themes evil God Jesus Christology Church dogma and world faiths Liechty may not be the first to make such an attempt but his work excels due to its combination of depth and its remarkable clarity As he comments I have tried here simply to say what I have to say as clearly as possible and as briefly as possible In Theology in Postliberal Perspective many will find precisely the kind of guidance to their thinking that they have been looking for in our perplexing age *God in Postliberal Perspective* Robert Andrew Cathey,2016-04-22 Who is God The variety of images of God tends to overwhelm us in the present age Is God a fiction of human construction or a reality that makes claims upon how we practice faith in God How does this quest for an understanding of God illumine who we are God in Postliberal Perspective presents an introduction to the doctrine and concept of God in contemporary philosophy and theology exploring how some theologians and philosophers dare to speak of God as real in our sceptical pluralistic and interfaith age Robert Cathey tours the house of realism as constructed by postliberal Christians David Burrell William Placher Bruce Marshall in conversation with living communities of faith and critical work in philosophy and theology and develops a distinctive argument about the relation of realism and non realism in constructing the doctrine of God in postliberal theology Offering a reading of postliberal theology which is open to critical discussion with other types of theology philosophy and faith traditions this book proposes a model of theological reflection that may be extended to the reality claims of a wide range of doctrines and concepts **Postliberal Theology: A Guide for the Perplexed** Ronald T. Michener,2013-02-14 Postliberal theology is a movement in contemporary theology that rejects both the Enlightenment appeal to a universal rationality and the liberal assumption of an immediate religious experience common to all humanity The movement initially began in the 1980 s with its association to Yale Divinity School Theologians such as Hans Frei Paul Holmer David Kelsey and George Lindbeck were influential and were significantly influenced by theologians such as Karl Barth Clifford Geertz and Ludwig Wittgenstein Postliberalism uses a narrative approach to theology such as developed by Hans Frei and argues that all thought and experience is historically and socially mediated Michener provide the reader with an accessible introductory overview of the origins current thought potential problems and future

possibilities of postliberal theology The basic philosphical and theological background are be briefly discussed along with the seminal and predominant theologians identified with the movement Michener shows how postliberalism emerges from the context of the postmodern critique of Enlightenment rationalism and empiricism Postliberal theology is extremely critical of classical liberal theology rather than an advancement of its agenda   Approaches to the Study of Religion Peter Connolly,1999-01-01 It has been argued that religious studies is a polymethodic discipline and that the student of religion should be familiar with the approaches of the major disciplines concerned with understanding the nature of religion not least because the approach adopted has profound influence on the phenomena chose for investigation and the conclusions reached This book is the first textbook specifically designed for undergraduate students that provides the essential background on methods of the major relevant disciplines Presenting each of the significant approaches to religion in an informed manner the book brings together experienced researchers from feminism anthropology sociology phenomenology psychology philosophy and theology It presents a consistent approach throughout with each chapter dealing with the same themes the historical development of the approach the characteristics of the approach and the surrounding issues and debates   Pentecostalism, Postmodernism, and Reformed Epistemology Yoon Shin,2021-12-27 In Pentecostalism Postmodernism and Reformed Epistemology Yoon Shin critically builds on James K A Smith s postmodern Pentecostal epistemology with the aid of Reformed epistemology It takes the reader through an interdisciplinary journey that exposits and illumines the relationship among Pentecostal spirituality continental and analytic philosophy postliberalism moral psychology and philosophy of emotion This work clarifies misunderstandings of Smith in Smith and between continental and analytic epistemology constructively and coherently synthesizing the sources through interdisciplinary analysis and thereby demonstrating the value of mashup philosophy The resulting epistemology strengthens the mostly descriptive epistemology of Smith with the warrant criteria of Alvin Plantinga   **The Nature of Doctrine** George A. Lindbeck,1984-01-01 This groundbreaking work lays the foundation for a theology based on a cultural linguistic approach to religion and a regulative or rule theory of doctrine Although shaped intimately by theological concerns this approach is consonant with the most advanced anthropological sociological and philosophical thought of our times   Theology and Contemporary Culture David G. Kamitsuka,1999-12-28 Drawing from postliberal revisionary and Latin American liberation theological perspectives David Kamitsuka offers proposals on theological method and doctrine responsive to the intellectual pastoral and socio political challenges of contemporary culture He recasts inter movement polemics in order to forge a theological approach which promotes what are often considered to be competing values among these three theological movements solidarity with the oppressed liberationist redescribing the Christian communal sense of scripture postliberal and fully critical reflection revisionist The author advocates an apologetic strategy entailing coherentist and consensus elements for justifying Christian claims in the pluralistic public realm He provides a model for reading scripture theologically which addresses the challenges

of poststructuralism and a globally diverse Church Kamitsuka uses rule theory to adjudicate doctrinal disputes on the relationship between salvation and political liberation and he proposes methodological virtues for theological practice rooted in practical judgements concerning the vitality and fidelity of Christian communities **God in Postliberal Perspective** Robert Andrew Cathey,2016-04-22 Who is God The variety of images of God tends to overwhelm us in the present age Is God a fiction of human construction or a reality that makes claims upon how we practice faith in God How does this quest for an understanding of God illumine who we are God in Postliberal Perspective presents an introduction to the doctrine and concept of God in contemporary philosophy and theology exploring how some theologians and philosophers dare to speak of God as real in our sceptical pluralistic and interfaith age Robert Cathey tours the house of realism as constructed by postliberal Christians David Burrell William Placher Bruce Marshall in conversation with living communities of faith and critical work in philosophy and theology and develops a distinctive argument about the relation of realism and non realism in constructing the doctrine of God in postliberal theology Offering a reading of postliberal theology which is open to critical discussion with other types of theology philosophy and faith traditions this book proposes a model of theological reflection that may be extended to the reality claims of a wide range of doctrines and concepts A Scientific Theology: Reality Alister E. McGrath,2001 A Scientific Theology is a ground breaking work of systematic theology in three volumes Nature Reality and Theory Written by one of the world s best known theologians these volumes together represent the most extended and systematic exploration of the relation between Christian theology and the natural sciences yet produced Thoroughly ecumenical in approach A Scientific Theology is a significant work for Catholic Orthodox Protestant and evangelical readers Each volume is marked throughout by a sustained and critical engagement with the history and philosophy of the natural sciences and by a passionate commitment to the legitimacy of theology as an academic discipline The three volumes together attempt to present an essentially linear argument from nature to theory so that questions of how reality is represented will be dealt with entirely in the final volume though preliminary discussions of aspects of reality are naturally included in this present volume The second volume in the series thus provides a detailed and thorough examination and defense of theological realism Its themes are set against the backdrop of radical changes in Western philosophy and theology resulting from the collapse of the Enlightenment project and the consequent fragmentation of intellectual discourse Engaging critically with writers such as George Lindbeck and John Milbank McGrath offers a sparkling and sophisticated affirmation of theological realism against its modern and postmodern critics His refutation of the claim that the rise of philosophical nonfoundationalism entails the abandoning of any form of realism is of particular importance as is his application of the highly influential form of critical realism developed by Roy Bhaskar Viewed as a whole Reality represents a sustained engagement with natural theology as the basis of a broader dialogue between the Christian tradition and other religious traditions Book jacket *Evangelical Theological Method* Stanley E. Porter,Steven M. Studebaker,2018-07-10 How should

one approach the task of theology This Spectrum volume brings together five evangelical theologians with distinctly different approaches to the theological task who present their own approach and respond to each of the other views Emerging from this theological conversation is an awareness of our methodological commitments and the benefits that each can bring to the theological task **A Contemporary Anabaptist Theology** Thomas N. Finger,2004-11-05 In this comprehensive volume Thomas N Finger takes on the formidable task of making explicit the often implicit theology of the Anabaptist movement and then presenting for the sake of the welfare of the whole contemporary Christian church his own constructive theology In the first part Finger tells the story of the development of Anabaptist thought helping the reader grasp both the unifying and diverse elements in that theological tradition In the second and third parts Finger considers in more detail the major themes essential to Anabaptist theology first considering the historic views and then presenting his own constructive effort Within the Anabaptist perspective Finger offers a theology that highlights the three dimensions of its salvific center the communal the personal and the missional The themes taken up in the final part form what Finger identifies as the convictional framework of that center namely Christology anthropology and eschatology This book is a landmark contribution of Anabaptist theology for the whole church in biblical historical and contemporary context *American Journal of Theology & Philosophy* ,1991 *A Sociological Analysis of the Theology of Quakers* Pink Dandelion,1996 This text represents a major sociological investigation into present day Quakerism in Britain Its main focus is how belief has become individuated within the group and the consequences of this postmodern condition It is argued that Quakers in Britain have become post Christian and that unity and cohesion are provided by adherence to a behavioural creed that a liberal belief culture operates alongside a conservative and confromist culture The relationship between these two aspects of the Quaker double culture is explored as is the way aspects of the behavioural creed especially the sacralization of silence have accommodated and promoted a paradigmatic shift in the nature of Quaker theology in the last 30 years a silent revolution The study examines alternative ways in which membership of a group can be constructed how apparently contradictory sets of values can be accommodated within a single culture how liberalism can be both promoted and constrained simultaneously and how organizational change can occur without any explicit or common agreement over the nature of change **An Introduction to Theology** Victoria La'Porte,2001 An Introduction to Theology presents a lively contemporary approach to theological questions It deals with a number of significant theological issues including the Enlightenment biblical criticism problems with the Creeds modern explanations of life and its questions and rebuilding theology in the modern world The approach is essentially problem centred in the sense that it seeks to analyse and explore the difficulties with certain aspects of Christian theology The reader is asked to engage in and grapple with important challenges to theology from the philosophical to the psychological and sociological including philosophical challenges to theology from Plato to the present the relevance of Creeds for contemporary theology the conflict between scientific and religious explanations of events the existence of other religions

challenges from Marxism liberalism and feminismThe book throws up questions for students to think about and maintains a contemporary flavour by drawing on current examples and events Wide ranging in content it is structured to act as a teaching guide each chapter concludes with a list of essay questions as well as a selection of issues suitable for debate Each issue is dealt with succinctly providing a base from which students can engage in wider reading This will be an ideal text for all students approaching the study of Theology for the first time Key Features Aimed at first year students assumes no prior knowledge Written as a teaching guide includes essay questions and a selectio of issues suitable for debate at end of each chapter Takes a problem centred approach and deals with each issue succinctly Contemporary takes examples from current issues and events **Paul Ricoeur Between Theology and Philosophy** Boyd Blundell,2010 Introduction Part I The main road Fundamental loyalties Theology hermeneutics and Ricoeur s double life Part II Detour Prefiguration the critical arc and descriptive identity Configuration the narrative arc and narrative identity Refiguration Ricoeur s little ethics Part III Return Chalcedonian hermeneutics Theological anthropology removing brackets Conclusion <u>Sabbatarianism in the Sixteenth Century</u> Daniel Liechty,1993 <u>Epworth Review</u> ,1992 **Publishers Weekly** ,1990 **Narrative and Morality** Paul Nelson,1987 This book analyzes a rich and diverse body of philosophical and theological literature concerning the import of narrative for the understanding of morality Nelson begins by examining the theses that to understand oneself a tradition and history as a whole they must be understood in the context of a narrative Recent philosophical writings on the relation of narrative to the moral concepts of social groups and individuals including Alasdair MacIntyre s proposal for the rehabilitation of an ethic of virtue shaped by narrative are explored Issues discussed include the freedom of moral agents in relation to their narratives the relation between narrative and universal moral rules and the problem of relativism Next Nelson classifies theological uses of narrative as belonging to either a liberal universalistic or postliberal particularistic tradition and considers the implications of construing scripture as narrative for the problematic relation between scripture and ethics The work of Stanley Hauerwas the foremost narrativist in Christian ethics is analyzed at length Nelson argues that while narrative is a necessary focus it does not exhaust the methodological agenda Narrative is not as its advocates sometimes suggest a universal solvent for every theological problem and disagreement An adequate Christian ethics must not lose sight of the universal narrative independent features of morality Since the realm of the moral is an interweaving of narrative dependent and narrative independent features Christian ethics stands to profit from both narrativist coherentist and rationalist foundationalist insights The role of narrative is demonstrably a major topic of conversation across several fields in religious studies today Particularly designed for scholars in ethics theology and the philosophy of religion the book is a reliable guide to an expanding literature and a judicious introduction to these interdisciplinary discussions **Theology and Dialogue** Bruce Marshall,1990 The contributors to this volume propose constructive directions for Christian theology on the eve of the 21st century Focusing on the imperative for dialogue that is deeply felt in contemporary theology these

original essays chart new ground in the constructive dialogue of theology with the whole Christian community with its environing cultures and with other religious traditions The book s topical focus is suggested by the work of George A Lindbeck to whom it is dedicated Lindbeck has contributed substantially to Christian theological dialogue in all three areas and the essays engage in different ways the themes and issues raised by his proposals
