Consuming Glory Gannon Murphy,2006-09-22 In the late 1990s Open Theism took the theological world by storm Advocated by several prominent theologians among them Clark H Pinnock the view argues that human beings cannot have a genuine relationship with God if God possesses what classical theology has affirmed to be exhaustive foreknowledge of future events Such foreknowledge open theists claim would make human freedom and salvation itself meaningless and divine power akin to little more than meaningless cosmic puppeteering While several works have taken the important step of addressing open theisms scriptural deficiencies in its denial of Gods foreknowledge none have dealt with the vital issue of divine human relationality and how it can be understood in a classical orthodox framework that maintains such foreknowledge *Consuming Glory* remedies that lack by first providing a fresh critique of open theism using Clark Pinnock s version of it as representative but then offering a reconstruction of divine human relationality centered on the Biblical principle of *Christus in nobis* *Christus in nobis* is coupled with an outworking of meticulous divine providence that serves Gods own self glorifying orientation It reverses the relational ordering advocated in open theism by grounding human love of God theologically rather than anthropologically Love of God and divine human relationality is established precisely because it is Gods own self love that is providentially given to us and thus reciprocated as believers are brought into adoptive communion with the Triune Godhead Drawing on diverse resources throughout the corpus of historical theology Murphy concludes that divine human relationality can be summarized as God delighting in himself in us **Quarterly Index to Periodical**

Borg, 2004-08-17 World renowned Jesus scholar Marcus J Borg shows how we can live passionately as Christians in today s world by practicing the vital elements of Christian faith For the millions of people who have turned away from many traditional beliefs about God Jesus and the Bible but still long for a relevant nourishing faith Borg shows why the Christian life can remain a transforming relationship with God Emphasizing the critical role of daily practice in living the Christian life he explores how prayer worship Sabbath pilgrimage and more can be experienced as authentically life giving practices Borg reclaims terms and ideas once thought to be the sole province of evangelicals and fundamentalists he shows that terms such as born again have real meaning for all Christians that the Kingdom of God is not a bulwark against secularism but is a means of transforming society into a world that values justice and love and that the Christian life is essentially about opening one s heart to God and
