Theology May June Issue 2002:

Cross Narratives Neal J. Anthony, 2010-06-01 Luther's radical interpretation of the two natures of Christ and specifically its expression through the ubiquitous presence of the humanity of Christ is a fundamental integral expression of that same theology. This expression of Luther's theology of the cross, Anthony asserts, provides both a fuller elaboration and an important and creative corrective with reference to recent significant expressions of the theology of the cross. As contemporary theologians of the cross have articulated, most notably Douglas John Hall and the late Alan E. Lewis, the theology of the cross through a transformation of the divine attributes that honors the integrity of created beings is preeminently a theology of redemption from within, within redemption. In the process of outlining and analyzing these theologies of within redemption, Anthony exposes an impasse created by these theologies regarding the relationship of within redemption to individual human narratives. It is through Luther's radical interpretation of the two natures of Christ, Anthony contends, that complete within redemption can be expressed. Anthony also evaluates the Christology of Karl Barth from the perspective of his findings. Not only is Anthony's work an innovative and fresh application of Luther's Christology for contemporary discussions of the theology of the cross, but it places Luther's Christology at the cutting edge of contemporary discussions regarding the theology of the cross and its within redemption.

Network Church Andy Lord, 2012-03-19 Pentecostal churches have grown over the last century, but only a limited amount has been written about their ecclesiology. Much of the existing work focuses on congregational models and contemporary practice. This book argues the need for a pentecostal systematic approach to ecclesiology. Utilising the method of Amos Yong, a pentecostal ecclesiology based on a network church structure is developed. Systematic issues of catholicity are addressed through mission insights on partnership and a hospitable approach to contextualisation is developed. This book therefore suggests new ways forward in pentecostal studies and ecclesiology.

Creationism's Trojan Horse Barbara Forrest, Paul R. Gross, 2007 The Wedge has intruded itself successfully into educational politics at the local, state, and now national levels. **BOOK JACKET**

Religion and Belief Tony Lawson, Joan Garrod, Tim Heaton, 2009-02-09 Religion, belief, and faith influence many areas of all our lives, whether we follow a particular doctrine or not. But are people becoming less religious in the modern age? Is religion a social construction? And what do key sociological theorists say about religion? This book examines the sociology of religion. Looking at belief systems around the world, the text questions and explores changing attitudes to religion alongside issues such as secularization, fundamentalism, and globalization. In particular, this text explores contemporary and classic theory, describes key practices and beliefs of particular faith groups, investigates social characteristics associated with religious belief and participation, and discusses various approaches to the organisation of religion from traditional institutions to sects and cults. Part of the successful Skills Based Sociology series, Religion and Belief provides readers with the opportunity to build their knowledge whilst putting their understanding into practice. The book's clear structure, helpful exercises, and exam guidance make this an
