Theology Of The Heart:

Theology of the Heart Bengt Runo Hoffman,2003 *The Heart of Christianity* Marcus J. Borg,2004-08-17 World renowned Jesus scholar Marcus J Borg shows how we can live passionately as Christians in today s world by practicing the vital elements of Christian faith For the millions of people who have turned away from many traditional beliefs about God Jesus and the Bible but still long for a relevant nourishing faith Borg shows why the Christian life can remain a transforming relationship with God Emphasizing the critical role of daily practice in living the Christian life he explores how prayer worship Sabbath pilgrimage and more can be experienced as authentically life giving practices Borg reclaims terms and ideas once thought to be the sole province of evangelicals and fundamentalists he shows that terms such as born again have real meaning for all Christians that the Kingdom of God is not a bulwark against secularism but is a means of transforming society into a world that values justice and love and that the Christian life is essentially about opening one s heart to God and to others **The Religion of the Heart** Ted Campbell,1991 In *The Religion of the Heart* Campbell surveys European and British pietistic movements of the 17th and 18th centuries During the period of inter Christian warfare in the 17th century a distinctive form of religious life emerged in varied cultural contexts that stressed the encounter with the divine through the affections especially penitence and love for God The Renewal of the Heart Is the Mission of the Church Gregory S. Clapper,2010-01-01 John Wesley has arguably influenced more American Christians than any other Protestant interpreter One reason for this wide influence is that Wesley often spoke about the heart and its affections that realm of life where all humans experience their deepest satisfactions as well as some of their deepest conundrums However one of the problems of interpreting and appropriating Wesley is that we have been blinded to Wesley s actual views about heart religion by contemporary stereotypes about affections or emotions Because of this it is rare that either Wesley s friends or his critics appreciate his sophisticated understanding of affective reality To make clear what Wesley meant when he emphasized the renewal of the heart Gregory S Clapper summarizes some recent paradigm changing accounts of the nature of emotion produced by contemporary philosophers and theologians and then applies them to Wesley s conception of the heart and its affections These accounts of emotion throw new light on Wesley s vision of Christianity as a renewal of the heart and make it possible to reclaim the language of the heart not as a pandering or manipulative rhetoric but as the framework for a comprehensive theological vision of Christian life and thought The book closes with several practical applications that make clear the power of Wesley s vision to transform lives today Logic of the Heart, The James R. Peters,2009-03 Drawing from the thought of Augustine Pascal and Hume Peters provides a clear philosophical defense of the rationality of Christian faith in a postmodern world Theology of the Cultus of the Sacred Heart Joseph Julius Charles Petrovits,1917 The Theology of Christ, from His Own Words Joseph Parrish Thompson,1871 **Heart of the Cross** Wonhee Anne Joh,2006-01-01 Theologies have often pointed to the cross as a place of suffering and sacrifice while feminist critiques have frequently

argued against interpretations of the cross as patriarchal valorizing of suffering Wonhee Anne Joh points toward a new interpretation of the cross as a place of love where God and humanity come together in a surprising way Interpreting the cross as performing a double gesture that has a subversive effect Joh argues that the cross works simultaneously to pay homage to and to menace complex oppressive powers Utilizing the Korean concept of jeong Joh constructs a theology that is feminist political and love centered while acknowledging the cross as source of pain and suffering Joh s innovative vision is a call for political love that is stronger than powers of oppression The Heart of the Creeds Arthur Wentworth Hamilton Eaton,1889 *Mind and Heart in Religion* Abraham Jaeger,1873 **Head and Heart** Fraser Watts,Geoff Dumbreck,2013-08-26 Theologians and religious figures often draw a distinction between religion of the head and religion of the heart but few stop to ask what the terms head and heart actually denote Many assume that this distinction has a scriptural basis and yet many Biblical authors used the word heart as a synonym for mind In fact there isn t a strict separation of the two concepts until the modern period as in Pascal s famous claim that the heart has its reasons that reason can not know Since then many other philosophers and theologians have made a similar distinction The fact that this distinction has been so persistent makes it an important area of study *Head and Heart Perspectives from Religion and Psychology* takes an inter disciplinary approach linking the thinking of theologians and philosophers with theory and research in present day psychology The tradition of using framing questions that have been developed in theology and philosophy can now be brought into dialogue with scientific approaches developed within cognitive psychology and neuroscience Though these scientific approaches have not generally used the terms head and heart they have arrived at a similar distinction in other ways There is a notable convergence upon the realization that humans have two modes of cognition at their disposal that correspond to head and heart The time is therefore ripe to bring the approaches of theology and science in to dialogue an important dialogue that has been heretofore neglected *Head and Heart* draws on the unique expertise in relating theology and psychology of the University of Cambridge s Psychology and Religion Research Group PRRG In addition to providing historical and theoretical perspectives the contributors to this volume will also address practical issues arising from the group s applied work in deradicalisation and religious education Contributors include Geoff Dumbreck Nicholas J S Gibson Malcolm Guite Liz Gulliford Russell Re Manning Glendon L Moriarty Sally Myers Sara Savage Carissa A Sharp Fraser Watts Harris Wiseman and Bonnie Poon Zahl **The Renewal of the Heart Is the Mission of the Church** Gregory S. Clapper,2010-01-01 John Wesley has arguably influenced more American Christians than any other Protestant interpreter One reason for this wide influence is that Wesley often spoke about the heart and its affections that realm of life where all humans experience their deepest satisfactions as well as some of their deepest conundrums However one of the problems of interpreting and appropriating Wesley is that we have been blinded to Wesley s actual views about heart religion by contemporary stereotypes about affections or emotions Because of this it is rare that either Wesley s friends

or his critics appreciate his sophisticated understanding of affective reality To make clear what Wesley meant when he emphasized the renewal of the heart Gregory S Clapper summarizes some recent paradigm changing accounts of the nature of emotion produced by contemporary philosophers and theologians and then applies them to Wesley s conception of the heart and its affections These accounts of emotion throw new light on Wesley s vision of Christianity as a renewal of the heart and make it possible to reclaim the language of the heart not as a pandering or manipulative rhetoric but as the framework for a comprehensive theological vision of Christian life and thought The book closes with several practical applications that make clear the power of Wesley s vision to transform lives today *American Journal of Theology* ,1906 Vols 2 6 include Theological and Semitic literature for 1898 1901 a bibliographical supplement to the American journal of theology and the American journal of Semitic languages and literatures By W Muss Arnolt Separately paged *The Glories of the Sacred Heart* Henry Edward Manning,1877 [Heart, The - An Elegant Pump: Its Origins And Partners](#) Desmond J Sheridan,2022-10-04 Our hearts have evolved to be extremely efficient long lasting pumps that exquisitely match the needs of our bodies This book is about how the heart does this how can a heart pump the blood for up to 100 years while the best Formula 1 racing engine has a working life measured in hours Why is the heart so efficient and how are worn out parts replaced while working How does it generate the force to act as a pump how is it controlled electrically and how can it repair itself This book addresses these questions from physiological and molecular perspectives in language that aims to be accessible to all interested in biology and with liberal illustrations The story of how the heart works is presented in the context of its origins The book begins with a discussion of why the word heart is universally used as a metaphor for reason and emotion and traces its origins in modern and ancient languages The last chapter offers advice on how to preserve the heart by matching our lifestyles more closely to how it evolved *Messenger of the Sacred Heart of Jesus* ,1896 *Studies in Sacred Theology* ,1930 **The Preacher's Lantern** ,1873 **"The" True Christian Religion, Containing the Universal Theology of the New Church, Foretold by the Lord in Daniel VII. 13, 14, and in Revelation XXI. 1, 2** Emanuel Swedenborg,1878 **Theological Encyclopædia and Methodology: Introduction and exegetical theology** Revere Franklin Weidner,1898
