As well as being a significant aspect of international governance and global justice, Amatrudo and Blake argue here that human rights have also eclipsed the rhetoric of religion in contemporary moral discussion. This book explores topics such as terrorism, race, and the rights of prisoners, as well as existing legal structures, court practices, and the developing literature in Criminology, Law, and Political Science in order to critically review the relationship between the developing body of human rights theory and practice and the criminal justice system. This book will be of considerable interest to those with academic concerns in this area, as well as providing an accessible yet sophisticated resource for upper-level undergraduate and postgraduate human rights courses.
