- ❖ Rights based on equality of respect and concern
- ❖ Rights based on cultural relativism

Theories Of Rights

Murli Desai

Theories Of Rights:

Theories of Rights C.L. Ten, 2017-05-15 To those who invoke them rights are powerful instruments for settling arguments in favour of the right holders But the nature provenance and justification of rights are uncertain and disputed and there are doubts about whether rights should play a distinctive and fundamental role in moral and political discourse More recent disagreements have centred on group rights and on whether rights have a universal application across different cultures and moral traditions These and other related issues are explored in depth by the essays in this volume which are mostly drawn from a wide range of journals in philosophy politics and law

The Concept of Rights George W. Rainbolt, 2006-07-08 Discussions of rights are ubiquitous One constantly hears things such as The Chinese are violating Tibetan rights Landlords have a right that their tenants pay their rent Students have a right to be graded fairly Animals have a right not to suffer merely to bring pleasure to humans Abortion violates a fetus right to life We violate the rights of future generations when we pollute the water These statements assert that Tibetans landlords students animals fetuses and future generations all have rights Tibetans landlords students animals fetuses and future generations do not seem to have much in common When one presses for clarity it is very difficult to say precisely what a right is What is it to have a right That is the question this book seeks to answer To paint with an overly broad brush previous answers to this question can be divided into two groups Some hold interest bene t theories of rights while others hold choice will theories of rights Perhaps the first person to propose an interest bene t theory was Jeremy Bentham Its most cited contemporary defender is Joseph Raz The seminal statement of the choice theory was made by H L A Hart Carl Wellman is perhaps the most able defender of a will theory of rights The debate between these two groups of theories has been a productive one

Natural Rights Theories Richard Tuck, 1979 The origins of natural rights theories in medieval Europe and their development in the seventeenth century

A Holistic Approach to Rights Eugene Schlossberger, 2008 Applying new theories about rights to pressing social issues A Holistic Approach to Rights suggests major changes are needed in the ways we think about rights and formulating social policy Part I analyzes rights as networks of warrants socially recognized sanctions for doing saying demanding believing feeling or thinking something as one s due On this account rights are more varied and play a more diverse and open ended role in legal and moral thinking than most theories of rights allow A new theory of natural rights treats them as claims that every person has upon the state as a condition of legitimacy to make adequate provision for those features of human life that require force against persons to be justified Moral rights such as the right to the truth derive from team loyalty due fellow members of the moral community and can be lost by someone who acts in ways that undermine the moral enterprise Part II provides detailed analyses of affirmative action group rights the rights of future generations reproductive rights the use of new reproductive technologies and speech rights Specific conclusions include an innovative proposal for regulating violence and pornography in the media

The Architecture of Rights David Frydrych, 2021-10-13 What is a right What if anything makes rights different from

other features of the normative world such as duties standards rules or principles Do all rights serve some ultimate purpose In addition to raising these questions philosophers and jurists have long been aware that different senses of a right abound To help make sense of this diversity and to address the above questions they developed two types of accounts of rights models and theories This book explicates rights modelling and theorising and scrutinises their methodological underpinnings It then challenges this framework by showing why the theories ought to be abandoned In addition to exploring structural concerns the book also addresses the various ways that rights can be used It clarifies important differences between rights exercise enforcement remedying and vindication and identifies forms of legal rights claiming and rights invoking outside of institutional contexts

Ethics in Practice Hugh LaFollette,2014-01-02 The fourth edition of *Ethics in Practice* offers an impressive collection of 70 new revised and classic essays covering 13 key ethical issues Essays integrate ethical theory and the discussion of practical moral problems into a text that is ideal for introductory and applied ethics courses A fully updated and revised edition of this authoritative anthology of classic and contemporary essays covering a wide range of ethical and moral issues Integrates ethical theory with discussions of practical moral problems and includes three essays on theory written specifically for this volume Nearly half of the essays are written or revised exclusively for this anthology which now also features eleven essays new to this edition as well as expanded sections discussing theory reproductive technologies war and terrorism and animals Content allows teachers to discuss discrete practical issues e g euthanasia focus on the broader grouping of topics e g life and death or focus on common themes which bridge sections sexism moral standing individualism and community Section introductions not only outline the basic issues discussed in the essays but relate them to theoretical perspectives and practical issues discussed elsewhere in the book Guides students with supporting introductory essays on reading philosophy theorizing about ethics writing a philosophy paper and a supporting web site at www.hughlafollette.com/eip4

Introduction to Rights-based Direct Practice with Children Murli Desai,2018-01-19 The Sourcebook introduces the theoretical and ideological foundation and methodological basis of Rights based Direct Practice with Children It starts with the methodology of participatory group workshops to facilitate learning of the content The content draws linkages among the foundation of life skills psychosocial sociological and critical theories of childhood and child rights values categories and principles with the approaches methods and skills of direct practice with children The book takes examples from India but makes significant contribution to training and reference material for child rights teachers trainers facilitators and field workers across the world especially in the developing countries

Thomas Paine and the Idea of Human Rights Robert Lamb,2015-05-28 Thomas Paine is a legendary Anglo American political icon a passionate plain speaking relentlessly controversial revolutionary campaigner whose writings captured the zeitgeist of the two most significant political events of the eighteenth century the American and French Revolutions Though widely acknowledged by historians as one of the most important and influential pamphleteers rhetoricians polemicists and political actors of his age the philosophical content of his

writing has nevertheless been almost entirely ignored This book takes Paine s political philosophy seriously It explores his views concerning a number of perennial issues in modern political thought including the grounds for and limits to political obligation the nature of representative democracy the justification for private property ownership international relations and the relationship between secular liberalism and religion It shows that Paine offers a historically and philosophically distinct account of liberalism and a theory of human rights that is a progenitor of our own

The Supreme Court and Constitutional Theory, 1953-1993 Ronald Kahn,1994 Combining theoretical sophistication with a fundamental comprehension of the political institutions of the USA this study aims to demystify the workings of the United States Supreme Court and its place in democracy

Rights Tom Campbell,2006 We take rights to be fundamental to everyday life Rights are also controversial and hotly debated both in theory and practice Where do rights come from Are they invented or discovered What sort of rights are there and who is entitled to them In this comprehensive introduction Tom Campbell introduces and critically examines the key philosophical debates about rights The first part of the book covers historical and contemporary theories of rights including the origin and variety of rights and standard justifications of them He considers challenges to rights from philosophers such as Bentham Burke and Marx He also examines different theories of rights such as natural law social contract utilitarian and communitarian theories of rights and the philosophers and political theorists associated with them such as John Stuart Mill John Rawls Robert Nozick and Michael Sandel The second part of the book explores the role of rights promoting institutions and critically assesses legal rights and international human rights including the United Nations The final part of the book examines how philosophies of rights can be applied to freedom of speech issues of social welfare and the question of self determination for certain groups or peoples

Rights A Critical Introduction is essential reading for anyone new to the subject of rights and any student of political philosophy politics and law

Group Rights David Ingram,2000 Ingram philosophy Loyola University brings a variety of current social dilemmas together in a mutually illuminating way He examines the concept of legal equality in a multiracial society by considering issues such as self governance for Native Americans the rights of immigrants affirmative action and racial redistricting tie also tackles the problem of social injustice in a global setting by assessing the negative impact of free trade policies on the rights of groups to self determination and cultural integrity

Child Rights Education for Inclusion and Protection Murli Desai,Sheetal Goel,2018-08-27 The aims of child rights education are to make children and their primary duty bearers aware of child rights so that they both can be empowered to together advocate for and apply them at their family school and community levels This sourcebook focuses on child rights education for primary prevention related to inclusion and protection Child rights education for exclusion non discrimination and inclusion is discussed in the context of family and society with reference to girls children with disability and Dalit and tribal children and child rights to cultural and financial inclusion Child rights education for protection comprises prevention of violence against children with reference to physical abuse corporal

punishment and bullying commercial exploitation of children with reference to child labour and trafficking and sale of children sexual abuse and exploitation of children problems in adolescent sexual relationships such as violence teenage pregnancy abortion and unwed motherhood and sexually transmitted infections and HIV child marriage and conflict with law This is a necessary read for social workers lawyers researchers trainers and teachers working on child rights across the world and especially in developing countries *The Withdrawal of Rights* O. Ezra, 2013-06-29 Like most discussions within the tradition of rights talk this study is motivated by the desire to promote the idea that rights are moral assets that people should acquire in the course of their membership within social and political frameworks However while most participants in rights talk concentrate on the safety and protection constraints required for a successful exercising of rights the present study inquires into the circumstances under which people's rights lose their validity The author believes that if we want to prevent the erosion of the role of rights within society and to encourage their obligatory status we should prevent their misuse or their unjustified or excessive use Those who have interests in rights and are concerned about their withdrawal or denial will find a unique and inventive way of dealing both with the use as well as the abuse of rights **Launching Liberalism** Michael P. Zuckert, 2002 In this volume prominent political theorist Michael Zuckert presents an important and pathbreaking set of meditations on the thought of John Locke In more than a dozen provocative essays many appearing in print for the first time Zuckert explores the complexity of Locke's engagement with his philosophical and theological predecessors his profound influence on later liberal thinkers and his amazing success in transforming the political understanding of the Anglo American world At the same time he also demonstrates Locke's continuing relevance in current debates involving such prominent thinkers as Rawls and MacIntyre Zuckert's careful reconsideration of Locke's role as launcher of liberalism involves a sustained engagement with the hermeneutical issues surrounding Locke an innovator who faced special rhetorical needs in addressing his contemporaries and the future It also involves highlighting the novelty of Locke's position by examining his stance toward the philosophical and religious traditions in place when he wrote Zuckert argues that neither of the dominant ways of understanding Locke's relations to his predecessors and contemporaries is adequate he is not well seen as a follower of any orthodoxy nor of any anti orthodoxy of his day either philosophical or theological He found a path to innovation that was philosophically radical but which was also able to connect with prevailing and accepted traditions That allowed him to exercise a practical influence in history rarely if ever matched by any other philosopher Zuckert illustrates that influence by showing how William Blackstone used Lockean philosophy to reshape the common law and how the Americans of the eighteenth century used Lockean philosophy to reshape Whig political thought Zuckert argues that Locke's philosophy has continuing philosophic and political force a proposition he demonstrates by arguing that Locke presents a form of political philosophy superior to that of the liberal theorists of our day and that he has solid rejoinders to contemporary critics of liberalism *THE CONCEPT OF RIGHTS*. George Rainbolt, 2006 *Immovable*

Laws, Irresistible Rights Christine Pierce, 2000 Same sex partnerships Pregnancy through in vitro fertilization Ending one's own life in dignity All are deemed inherently wrong by the standards of natural law ethics but for many people they represent legitimate life choices that are morally right Now a leading feminist critic of the natural law tradition explores the ongoing confrontation between natural law and moral rights to argue that rights constitute a more solid grounding for ethics in human affairs and for feminist thought In this volume Christine Pierce's important essays including the celebrated *Natural Law Language and Women* expand reflect and refine this central controversy Reaching back to Aristotle and Aquinas and drawing on modern papal encyclicals and Supreme Court cases Pierce demonstrates that the natural law tradition with its doctrine of a supposed hierarchy of natural purpose has served to mystify women's nature and thereby justify restricting women to a predetermined social stratum Addressing issues that concern not only feminism but legal theory as well she defends her views on equality and universalization against a growing postmodern critique and presents rights theory as an alternative to an ethics of responsibility based on Aristotelian notions of friendship and trust Through tightly constructed arguments presented in engaging prose Pierce conveys her deep knowledge of legal philosophy and her passion for rights as she takes on such issues as AIDS gay marriage animal liberation and feminist separatism She combats the prevailing view of Plato as sexist and explores Sartre's views of holes and slime She also examines the work of contemporary authors in ecology biology sociobiology and religion to reveal their reliance on nature for ethical conclusions and she criticizes recent efforts to root a feminist natural law in Thomism With natural law concepts now in fashion with many conservatives and even some Supreme Court justices Pierce's essays offer a necessary perspective on where current legal and ethical thinking is headed

Immovable Laws Irresistible Rights is invigorating reading for all scholars students and interested readers who seek a better understanding of these arguments and the issues affected by them

Rethinking Rights Bruce P. Frohnen, Kenneth L. Grasso, 2009 Essays retrace the historical development of rights in the West assessing the influence of Locke Burke and the authors of the Declaration of Independence to clarify the experience of rights within the Western tradition showing that rights need to be rethought so that they may again truly serve the human good Provided by publisher [The Lockean Theory of Rights](#)

A. John Simmons, 1994-07-25 This is a systematic full length study of Locke's theory of rights and of its potential for making genuine contributions to contemporary debates about rights and their place in political philosophy Simmons refers extensively to Locke's published and unpublished works [Constitutionalism and Rights](#)

Gary C. Bryner, Noel B. Reynolds, 1987 *Constitutionalism and Rights* explores the ambivalent relationship between the American tradition of constitutionalism and the notions of rights that have emerged over the last three centuries The six essays focus systematically on selected tensions between these two fundamental strands in the American tradition of liberty and self government Discussed are ideas of rights and constitutionalism generally mechanisms and procedures necessary to assure rights in a large bureaucratic state rights as expressed in public welfare programs innovations employed by the eighteenth

century Framers to achieve limited government as a means to securing fair and equal individual freedom the dependence of rights on institutional devices and the rule of law the need for public virtue balancing individual rights with self sacrifice for the common good if the American constitutional system is to survive and the dangers of individualism and individual rights posed by modern liberalism The essayists are prominent scholars representing the disciplines of political science government and law They all state their confidence in the American constitutional system but they also voice doubts about the future if problems are not redressed The editors conclude their introduction by expressing hope that this volume will clarify some important issues and help us remember essential lessons of the past as we continue in this great public conversation

Constitutionalism and Rights is the first of a three volume series examining significant features of the Constitution The series inspired by the bicentennial of that great achievement consists of essays presented by scholars at three conferences on the Constitution held at Brigham Young University in 1985 1986 and 1987 and several additional essays written especially for these volumes

International Journal of Ethics ,1915 Includes section Book reviews

Theories Of Rights: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the fascinating narratives that have enthralled audiences this year. Theories Of Rights : Colleen Hoovers "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Theories Of Rights : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
