Theorising The Fantastic:

Theorising the Fantastic Lucie Armitt, 1996 *Theorizing the Fantastic* surveys illustrates and analyses the impact that recent critical theory has had upon current understanding of the workings of nineteenth and twentieth century fantasy fictions and their place in relation to the literary mainstream Integrating structuralist psychoanalytic postmodern and feminist discourses the book examines how the genre demarcations perceived to exist between fairy tales gothic horror and science fiction can be productively broken down and rethought using a variety of interrogative theoretical approaches

Contemporary Women's Fiction and the Fantastic L. Armitt, 2000-04-14 This volume examines a wide variety of the ways in which the fantastic has impacted upon contemporary women's fiction Some of the issues addressed include the importance of the cyborg and the spectre to critical and fictional discourses of gender the interface between the grotesque and contemporary readings of feminist utopianism the growing similarity between late twentieth century gothicism and the magical real The study is based upon the work of fifteen writers and includes novels by Allende Atwood Carter Head Morrison Weldon Winterson and Wittig

Dimensions of the Fantastic Daniel Ferreras Savoye, 2023-05-29 Not to be confused with fantasy or the supernatural the fantastic is in actuality its own beast and perhaps the most deeply frightening of all narrative modes From *Dracula* and *Nightmare on Elm Street* to *Carrie* and *Them* the fantastic has become an ideal vehicle to denounce deep cultural dysfunctions that affect not only the way we understand reality but also how we construct it This work studies the various dimensions of the fantastic mode examining the influences of iconic authors such as H P Lovecraft and Jean Ray and addressing key narrations such as Guy de Maupassant's *The Horla* and Jordan Peele's *Get Out* It explains why the fantastic is not about ghosts or monsters but about the incomprehensible sides of our own reality and the terrifying unknown

Theorizing the Fantastic, 1996 On the role of the fantastic in literature

Constructing Adolescence in Fantastic Realism Alison Waller, 2010-12-22 *Constructing Adolescence in Fantastic Realism* examines those fundamental themes which inform our understanding of the teenager themes that emerge in both literary and cultural contexts Models of adolescence do not arise solely from discourses of psychology sociology and education Rather these models frameworks including developmentalism identity formation social agency and subjectivity in cultural space can also be found represented symbolically in fantastic tropes such as metamorphosis time slip hauntings doppelgangers invisibility magic gifts and witchcraft These are the incredible supernatural and magical elements that invade the everyday and diurnal world of fantastic realism In this original study Alison Waller proposes a new critical term to categorize a popular and established genre in literature for teenagers young adult fantastic realism Though fantastic realism plays a crucial part in the short history of young adult literature up until now this genre has typically been overlooked or subsumed into the wider class of fantasy Touching on well known authors including Robert Cormier Melvin Burgess Gillian Cross Margaret Mahy K M Peyton and Robert Westall as well as previously unexamined writers Waller explores the themes and ideological perspectives

embedded in fantastic realist novels in order to ask whether parallel realities and fantastic identities produce forms of adolescence that are dynamic and subversive One of the first studies to deal with late twentieth century fantastic literature for young adults this book makes a valuable contribution to our understanding of adult attitudes toward adolescent identity

Spaces and Places in the Fantastic Kristin Aubel, Sarah Edwards, Christian Lenz, 2025-06-12 This book is an interdisciplinary collection of essays examining the spaces and places central to fantasy science fiction and horror across literature film television art and video games By employing new and interdisciplinary approaches this volume highlights the intricate interplay between setting imagination and cultural context in the fantastic Through its diverse themes and texts it provides a comprehensive overview of contemporary research on how spaces both function in and shape fantastic storytelling What unites these essays is their sharp observations of the complex workings of fantastic geographies and their ability to challenge and contribute to preconceived notions and existing research The included essays explore how fantastic landscapes from soundscapes and digital worlds to bodies in and as spaces shape identity reflect social ideas and norms and challenge perceptions of the real world Contributions from international scholars address a wide range of topics such as queer and digital spaces cartography and the fine arts offering fresh perspectives on the construction poetics and functions of fantastic geographies The editors are united in their research interest in the fantastic and literary geography The essays collected in this edited volume are based on a conference they organised in 2022 at TU Dortmund University Germany

Science Fiction Studies, 1999 *The Utopian Fantastic* Martha A. Bartter, 2004-04-30 Utopia forms a major aspect of human desire one that is as important as religion Understanding utopia and the ways in which it can collapse into dystopia is crucial in many disciplines Fantastic literature including science fiction and fantasy is the only form of literature that takes utopia dystopia seriously Therefore analysis of these works provides a basis for serious experimentation in social science In this volume critics analyze contemporary literary thought experiments such as *1984* and *We* They show how utopian experiments can easily slide into dystopia Exploring these fictional sociocultural political experiments gives us new ways to think about our lives and culture While literature history and political science professors may find this book useful it can also serve as a call to arms to anyone dedicated to maintaining freedom and humane living in the world today

The Fantastic in France and Russia in the Nineteenth Century Claire Whitehead, 2006 Hesitation between a natural or supernatural interpretation of fictional events is the life blood of the fantastic but just how is this hesitation provoked Using examples from nineteenth century French and Russian literature this work provides a range of answers to this question

Through the Screen Wildly Joanne Benford, 2008 As with the relationship between any two cultural areas the flow of ideas between science and science fiction is two way An exchange of knowledge and perspectives exists fed by the concerns of society at large This book explores the dialogues that take place between science fiction and the postmodern world and what effects these have had on identity I take the science fiction novel to be the paradigmatic form of postmodernism Instead of presenting a truth with

possible explanations between which it may be impossible to choose the science fiction novel presents possible worlds The stuff of fiction the human condition is framed by unusual worlds which in turn create surprising dilemmas with which the characters must cope It is this question of possible worlds exploring how they relate to temporality in postmodern fiction linking to ideas of hyperspace and finally to my discussion of the postmodern city and the notion of the wildzone

"Infinite Diversity in Infinite Combinations" Katja Kanzler,2004 Since its first appearance on the small screen in 1966 the multimedia franchise Star Trek has attracted an unprecedented fan following in the U S and beyond For many viewers it has been Star Trek s ostensible representation of a multicultural utopia that fascinated them This book seeks to elucidate the semiotics of Star Trek s popular multiculturalism Engaging Cultural Studies and American Studies theory the book proceeds from a discussion of Star Trek s self fashioning as a multicultural vision to readings of its changing articulations of racial ethnic gender and sexual difference and concludes with case studies of two fan communities creative appropriations of Star Trek s promise of an egalitarian future

The Postmodern Fantastic in Contemporary British Fiction Martin Horstkotte,2004 This study looks at the complex relationship between postmodernism and the fantastic in contemporary British fiction and shows that a new type of the fantastic arises in postmodernism Arguing against interpretations that view postmodernism as inherently fantastic it seeks to define the postmodern fantastic as a narrative mode that is influenced by certain traits both of the traditional fantastic and of literary postmodernism but does not simply conflate both In the first theoretical part a number of theories of the fantastic and of postmodernism are used to set the fantastic apart from other non mimetic forms of literature and to create a model of the postmodern fantastic that postulates the totalisation of the fantastic in postmodernism In the second part of this study this model is applied to a number of contemporary British texts which are particularly susceptible to this form of the fantastic due to several characteristics such as their muted kind of postmodernism and their frequent construction of parallel worlds The analysis of these texts focuses on four thematic fields of the postmodern fantastic the figure of the other as defined by Bernhard Waldenfels time and history text and textuality and the development of the Todorovian pure fantastic Finally the question of the death of the fantastic in postmodernism is examined
