A Theory of Literary Production Pierre Macherey, 1992 **A Theory of Literary Production** Pierre Macherey, 1978 Who is more important the reader or the writer Originally published in French in 1966 Pierre Macherey's first and most famous work *A Theory of Literary Production* dared to challenge perceived wisdom and quickly established him as a pivotal figure in literary theory In this provocative work Macherey puts the focus as much on the reader as the writer stating that the very act of reading is a form of production in its own right generating interpretation and meanings which are beyond the control of the author Part of the birth of a whole new branch of post-structuralist theory Macherey's work also influenced a new generation of critics among them Jacques Derrida his contemporary and Terry Eagleton His ideas have also led some observers to claim that he announced the death of the author fully two years before Roland Barthes' famous essay

A Theory of Literary Production P. Macherey, 1978 [Pierre Macherey and the Case of Literary Production](#) Warren Montag, Audrey Wasser, 2022-08-15 This collection revisits *A Theory of Literary Production* 1966 to show how Pierre Macherey's remarkable and still provocative early work can contribute to contemporary discussions about the act of reading and the politics of formal analysis Across a series of historically and philosophically contextualized readings the volume's contributors interrogate Macherey's work on a range of pressing issues including the development of a theory of reading and criticism the relationship between the spoken and the unspoken the labor of poetic determination and of literature's resistance to ideological context the literary relevance of a Spinozist materialism the process of racial subjectification and the ontology of Blackness and a theorization of the textual surface

produced a series of original philosophical works This first collection of his philosophical writings to be published in English discloses the full range of Macherey's interventions testifying to his signal status as one of France's leading philosophers In a Materialist Way ranges over Macherey's writings on philosophy and theory critiques of the work of major figures in contemporary French thought such as Lacan Foucault and Canguilhem and analyses of the work of Spinoza It reveals to English speaking audiences what has long been common knowledge in France that Pierre Macherey is among the most fertile imaginative and subtle of contemporary philosophers

texts Scholars and students in fields such as Latin American studies comparative literature and literary theory will find in this book compelling readings of literature from a theoretical perspective methodological suggestions as to how to use current theory in the study of literature and important debates and revisions of major theoretical works through the lens of Mexican literary works

Indebted Yonatan Sagiv, 2016-12-31 *Indebted Capitalism and Religion in the Writings of S Y Agnon* is the first book to examine the oeuvre of Shmuel Yosef Agnon 1966 Nobel laureate in literature through a reading that combines perspectives from economic theory semiotics psychoanalysis narrative theory and Jewish and religious studies Sagiv outlines the vital role economy plays in the construction of religion subjectivity language and thought in Agnon's work and accordingly explores his literary use of images of debt money and economy to examine how these themes illuminate other focal points in the canonical author's work excavating the economic infrastructure of discourses that are commonly considered to reside beyond the economic sphere Sagiv's analysis of Agnon's work renowned for its paradoxical articulation of the impact of modernity on traditional Jewish society exposes an overarching distrust regarding the sustainability of any economic structure The concrete and symbolic economies surveyed in this project monetary divine semiotic libidinal and literary are prone to cyclical crises Under what Sagiv terms Agnon's law of permanent debt the stability and profitability of economies are always temporary Agnon's literary economy transgressing traditional closures together with his profound irony make it impossible to determine if these economic crises are indeed the product of the break with tradition or alternatively if this theodicy is but a fantasy marking permanent debt as the inherent economic infrastructure of human existence Many of the author's narrators and characters be they more or less religious distrust money Unlike romantic ideas of art's transcendence the monetary sign does not enable one to entertain thoughts of an ideal truth Georg Simmel's famous description of the metaphysical quality of money elucidates the moment when money transforms from a means to an end in an all pervasive monetary economy thereby establishing a world of radical exchangeability As such money as exchangeability personified dictates a world devoid of eternal and intrinsic values Sagiv argues that this is precisely what troubles Agnon both as a religious thinker and as a modern writer
